Staff Report

Agenda Date: 1/8/2026
To: Technical Coordinating Committee

Agenda Item: 5.4

2055 Metropolitan Transportation Plan

Chris Lukasina, MPO Executive Director

Staff will provide an update on the development of the 2055 Metropolitan Transportation Plan (2055 MTP/CTP). The update will focus on:

- Update on draft 2055 MTP/CTP report and approved projects/programs
- Anticipated 2055 MTP/CTP schedule and actions.

The CAMPO Executive Board approved the projects/programs for the 2055 MTP/CTP at their November 19th, 2025 meeting. The MPO staff has undertaken the necessary follow-on steps to complete the full 2055 MTP/CTP report document and required air quality conformity determination. This includes items such as final network updates based on approved projects, final socio-economic and travel demand forecast model runs, air quality and Title VI network analysis, performance measure analysis and report, air quality conformity determination, and document preparation. The 2055 MTP webpage has continued to have the most current updates incorporated into the draft document. Final approval will include the SE Data, the previously approved 2055 MTP/CTP projects and financial plan, Goals, Objectives, Performance Measures & Targets, the air quality conformity determination, the full report, and the Triangle Regional Model (previously approved for planning purposes and MTP development). A public hearing is scheduled for January 21, 2026.

Readers should note that there is an executive summary in the front of the full report and the last page of each chapter has a short summary of key points.
