Community Funding Area Program Management Plan Update
Stephanie Plancich, MPO Staff

The Community Funding Area Program Management Plan (PMP) was completed as part of the larger 2035 Wake Transit Plan Update. This plan serves as the main guidebook for administration of the Community Funding Area Program. The draft PMP was considered by the TPAC during its August 2025 meeting and was released for a 30-day public comment from September 22 - October 22, 2025. Staff will be giving an overview of the new revisions to the document and an adoption schedule. In November, the TCC will receive a summary of the engagement and will be asked to recommend adoption of the document to the CAMPO Executive Board and GoTriangle Board of Trustees at their November 19, 2025 meeting.

Requested Action: Conduct public hearing
