

INFORMATIONAL ITEM: PROJECT UPDATES

A. Hot Spot Program – The FY 2017 UPWP contains funding for 2 to 4 hot spot studies under this program. Staff is evaluating locations and will select hot spot study locations in the coming weeks. It is anticipated that an RFQ will be released in late November or early December (Staff Contact: Shelby Powell)

B. Transit Systems Planning – Following the Wake County Board of Commissioners approval of the Wake County Transit Financial Plan and corresponding Interlocal Governance Agreement (ILA) on June 6, 2016, the Transit Planning Advisory Committee (TPAC), created and authorized by the ILA, held its first meeting on June 20, 2016. To date, the TPAC has held multiple meetings to develop its operational structure, including its bylaws, membership, meeting schedule, and sub-committees and working groups, and to discuss the beginnings of many of its work products related to plan implementation outlined in the ILA. The CAMPO TCC and Executive Board approved the TPAC's recommendations related to its operational structure and composition in September and October and should anticipate receiving technical recommendations in the form of an FY 2017 Wake Transit Work Plan in November as information and for consideration of approval in January 2017. (Staff Contact: Bret Martin)

D. Southeast Area Study - The Southeast Area Study is the MPO's third area study following the Southwest and Northeast Area Studies. The study area encompasses the southeastern portion of Wake County including the Town of Garner and portions of the City of Raleigh and the western portion of Johnston County including the towns of Clayton, Archer Lodge, Wilson's Mills, Smithfield and Selma. The consultant and the sub-consultants are continuing work on the three hot spot locations in Archer Lodge, Garner and Smithfield. The consultant team is also continuing to work on the land use scenario planning element of the study with a preferred scenario under development. A CTT/SOT meeting will be held in November 15th 2-4PM at the Clayton Center. A second public symposium is being planned for January 12th 4-7PM at the Clayton Center. More information can be found on the project website at www.southeastareastudy.com (Staff Contact: Alex Rickard)

E. Regional Freight Plan Study - The Capital Area Metropolitan Planning Organization, in cooperation with the Durham-Chapel Hill-Carrboro Metropolitan Planning Organization (DCHCMPO), and the North Carolina Department of Transportation (NCDOT) has hired the consultant services of Parsons Brinckerhoff to develop a Regional Freight Plan for the Triangle region. The proposed study is jointly funded by the agencies as mentioned above. The partnership recognizes the importance and need for these agencies to jointly address freight issues in the region. The purpose of the plan is threefold:

- To conduct a comprehensive regional study of freight, goods movement, and services mobility needs;
- To develop a framework to proactively address freight and goods movement mobility needs and challenges in our region; and
- To examine all modes of a freight transportation system with emphasis on trucks, rail and air cargo and to develop freight recommendations for the 2045 joint Metropolitan Transportation Plan.

The Regional Freight Stakeholders Advisory Council (RFSAC) meeting as well as the Regional Freight Plan Steering Committee meeting was held on Thursday, September 22, 2016 from 8-10am and from 10:00 am to 12:00 pm respectively at TJCOG. Issues discussed at both meetings included: (1) a Freight Future Conditions Assessment for the Triangle, (2) a review of regional Strategic Freight Corridors, and (3) Logistics Clusters and Development Zones. CAMPO staff and local staff have been meeting to review and make changes to the Strategic Freight Corridors; and this exercise will be completed soon. A presentation on the Regional Freight Plan will be given at the Joint MPO Executive Board meeting on Wednesday, November 30, 2016. (Staff Contact: Kenneth Withrow)

F. LAPP Program – There were 22 prior-year projects that did not make authorization prior to the end of FFY16. Of the 22, three still have ROW and CON authorization pending and two of those projects are anticipated to receive ROW authorization after FFY17 opens. The remaining 19 prior-year projects are all working toward CON authorization, with approximately 10-12 anticipated to receive that authorization in the next few months. Questions regarding the LAPP Program can be submitted to Danna Widmar at Danna.Widmar@campo-nc.us. (Staff Contact: Danna Widmar)

G. LAPP Funding Availability Report – Monthly updates on the status of Available Funds will be provided while we work to catch up on projects from prior years. All FFY17 agreements have been signed. Only one FFY16 agreement has not yet been completed. Several projects made submittals over the last month, but many submittals are still pending approval. We need to continue to focus on project completion of all FFY14, FFY15 and FFY16 projects, while also starting FFY17 projects. Questions regarding the Funding Availability Report can be submitted to Danna Widmar at Danna.Widmar@campo-nc.us. (Staff Contact: Danna Widmar)

H. (SRTS) John Rex Endowment Grant Award Update - As of the December 18, 2015 SRTS Subcommittee meeting, UNC Highway Safety Research Center (HSRC) staff reported that they have held steering committee meetings at all five of the schools that are participating in the John Rex Endowment project. Along with the “common threads” found for each of the schools and their respective local government staff members is the need for sidewalks to the schools and greenway access. HSRC staff members also met with local government staff members in

October and November, 2015 to conduct a “Policy Audit” to understand existing municipal policies and practices for pedestrian safety. Finally, HSRC staff has launched the project website as <http://saferouteswakecounty.org/>. The website was created to focus first on serving the needs of those involved in the project, but also broad enough that others who visit the site looking for SRTS info in general may find something useful. Activities have been done at all of the five partner schools in the form of steering committee meetings to create school action plans. All five SRTS Action Plans were completed in July. The plans are recommendations and are accompanied by a small amount of funding (\$16,000 per school). The Wake County SRTS Work Group met on August 19; and reviewed the John Rex Endowment grant activities, discussed policy directives for the Wake County Public School System, presented the Greenlight Expression of Interest (EOI) application process, and reviewed subcommittee updates. CAMPO staff addressed the Wake County School Board on October 4 to remind them of Walk to School Day, which was held on Wednesday, October 5, 2016. Walk to School Day events were held throughout the region; which included the Secretary of Transportation speaking to students and parents at Conn Elementary School on Wednesday morning, October 5. The SRTS Subcommittee met on Friday, October 21 to discuss the JRE Grant, revisions to Wake County School Board policy initiatives, developing an SRTS prioritization process, as well as receive updates on Walk to School events and training opportunities. (Staff Contact: Kenneth Withrow)

I. NC Non-Motorized Volume Data Program - Phase II Region Roll-out - The North Carolina Department of Transportation (NCDOT) in cooperation with ITRE, the MPOs and RPOs in Highway Divisions 4, 5, 8, and 10 is working this year to develop a bicycle and pedestrian volume counting program with consistent methodologies that can be replicated statewide. Following a review of 44 sites, a total of 14 sites in the four cities of Apex, Cary, Raleigh, and Wake Forest were determined to be suitable. At this time the Memorandum of Agreement between CAMPO and NCDOT is under review. (Staff Contact: Kenneth Withrow)

J. Triangle Tolling Study - The Capital Area MPO, the Durham-Chapel Hill-Carrboro MPO, and NCDOT/NCTA are embarking on the development of a regional toll study that will identify the feasibility, applicability, and appropriateness of a variety of user pay systems for potential consideration across the Research Triangle region. Recommendations developed as part of this study will be used to inform the development of future Metropolitan Transportation Plan (MTP) updates. Scope negotiations are underway with a consultant, with an anticipated Notice to Proceed as of November, 2016. (Staff Contact: Kenneth Withrow)

K. NC 98 Corridor Study – The Capital Area MPO, Durham-Chapel Hill-Carrboro MPO, and NCDOT will be initiating a corridor study for NC 98 from U.S. 70 in Durham to U.S. 401 in southern Franklin County beginning in FY 2017. The study will determine and address critical issues and needs along the corridor associated with mobility, operational function, and safety

for motor vehicle users, pedestrians, bicyclists and transit users. The study will provide recommendations for the ultimate vision for the corridor while also generating recommendations for the corridor that can be implemented in the short- to mid-term that address more immediate deficiencies but also work toward implementation of the ultimate vision. Recommendations developed as part of the study will be used to inform the development of future Metropolitan Transportation Plan (MTP) and Comprehensive Transportation Plan (CTP) updates, as well as the MPO's biennial prioritization of projects to be considered for inclusion in the Transportation Improvement Program (TIP). A consultant has preliminarily been selected for the study. The study is anticipated to proceed with a Core Technical Team kickoff meeting in November 2016 and will continue until no later than June 30, 2018. (Staff Contact: Bret Martin)
