Project Selection

- When reviewing projects, staff seeks clarification from the applicant only when needed to confirm eligibility and clarify the details of the project (project elements, detailed costs, etc.).
 - Eligibility Concerns: Federal Aid Eligible, MTP Compliant, Shovel Ready, etc.
 - Administrative Concerns: Reasonable Schedule, Required Materials, etc.
- The LAPP Selection Committee reviewed eligible FFY 2018 LAPP project submissions. Before starting their evaluation, they discussed philosophy in reviewing the projects, including:
 - Serving as an external reasonable check.
 - Raising questions: Has the applicant covered their bases?
 - Recommending approaches to implementation to improve the outcomes.
- All projects are expected to score at least 50% of the points awarded to the top-scoring project in each mode. If a project does not score at least 50%, the LAPP Selection Committee determines if the project should be funded, or if the funds from that modal mix element should be reallocated to another modal mix element to fund higher-scoring projects.
