

APPENDIX B: SERVICE PROJECTS PRIORITIZATION

The table below shows the results of the prioritization process for bus service projects. These projects were prioritized based on the Wake Bus Plan Project Prioritization Policy (adopted by Governing Boards in January 2023) and were used as the starting point for project programming. New service projects developed during the Wake Bus Plan Update process were evaluated using this Prioritization Policy, while all existing routes regardless of funding source were evaluated using the Wake Bus Plan Service Standards and Performance Guidelines.
