CAMPO Advanced Air Mobility (AAM) Study
Daniel Spruill, MPO Staff

CAMPO was awarded an Advanced Air Mobility Grant from the NCDOT Division of Aviation for FY 2026 to examine the current condition of Air Mobility and explore what this mode of transportation could mean for the region. This study will be managed by NCDOT Division of Aviation alongside CAMPO to develop a high-level regional framework for AAM implementation and coordination between member jurisdictions.

Requested Action: Authorize the Executive Director to sign Final Local Funding Agreement with NCDOT Division of Aviation containing the addition of language stating NCDOT followed Federal Procurement Rules
