Agenda Item: 7.5

2055 MTP/CTP Update

Chris Lukasina, MPO Executive Director

The development of the 2055 Metropolitan Transportation Plan (2055 MTP/CTP) continues. The Metropolitan Transportation Plan is the region's long-range transportation plan and includes both a fiscally constrained element as well as an unconstrained vision plan element known as the Comprehensive Transportation Plan (CTP). As such, this plan serves as both the region's federally recognized MTP and state recognized CTP. This plan is required to be updated every four years. A current development schedule has been included as an attachment. The MPO staff has continued development of updated draft scenario alternatives for the 2055 Metropolitan Transportation Plan (2055 MTP/CTP). These scenarios are used to help inform our forecasts for population, employment, and travel changes between today and our ultimate 2055 horizon year. Interactive maps to explore all of the various alternatives and scenarios is available through the CAMPO website. Next steps in the 2055 MTP development include:

- Continued refinement of the various Alternatives Analysis scenarios
- Selection of a Preferred Alternative
- Continued development of the financial plan

Requested Action: Receive as information. Consider action on the recommended Preferred Alternative to use in the next phase of the MTP development.
