CAMPO & DCHC SERVICE AREA

ORGANIZATION & STAFFING

A Metropolitan Planning Organization (MPO) is the policy board of an organization created and designated to carry out the metropolitan transportation planning process. MPOs are required to represent localities in all urbanized areas (UZAs) with populations over 50,000, as determined by the U.S. Census. MPOs are designated by agreement between the governor and local governments that together represent at least 75 percent of the affected population (including the largest incorporated city, based on population) or in accordance with procedures established by applicable state or local law. When submitting a [Transportation Improvement Program](#) (TIP) to the state for inclusion in the statewide program, MPOs self-certify that they have met all federal requirements.

An urbanized area with a population over 200,000, as defined by the Bureau of the Census and designated by the Secretary of the U.S. Department of Transportation (DOT), is called a Transportation Management Area (TMA). As described in 49 U.S.C. 5303(k), and in recognition of the greater complexity of transportation issues in large urban areas, an MPO in a TMA has a stronger voice in setting priorities for implementing projects listed in the transportation improvement program and are responsible for additional planning products. The planning processes for MPOs in TMAs also must be certified by the Secretary of DOT as being in compliance with federal requirements.

The Capital Area MPO grew from a collaborative effort between Cary, Raleigh, Garner, and Wake County into an organization that currently includes all of Wake County, as well as parts of Franklin, Granville, Harnett, and Johnston Counties. This includes the municipalities of: Angier, Apex, Archer Lodge, Cary, Clayton, Creedmoor, Franklinton, Fuquay-Varina, Garner, Holly Springs, Knightdale, Morrisville, Rolesville, Wake Forest, Wendell, Youngsville, and Zebulon. The Capital Area MPO serves as the coordinating agency between local governments, the N.C. Department of Transportation (NCDOT), the Federal Transit Administration (FTA), and the Federal Highways Administration (FHWA) within the U.S. Department of Transportation. Staff has established a close working relationship with the planning departments of municipalities within the MPO as well as with the planning staff of the neighboring [Durham-Chapel Hill-Carrboro \(DCHC\) MPO](#).

CAMPO is comprised of three parts: the [Executive Board](#) (formerly the Transportation Advisory Committee (TAC)), a [Technical Coordinating Committee](#) (TCC), and a [staff](#). The MPO is responsible for carrying out an annual work program that is approved by the Executive Board. The MPO also must update the MPO's [Transportation Improvement Program](#) (a ten-year project

programming schedule) and the [Metropolitan Transportation Plan](#) (a minimum twenty-year forecast of projects and programs).

The Executive Board is the decision-making body of the MPO, comprised of elected officials from member governments, as well as stakeholders from other agencies totaling thirty members. The Executive Board typically meets monthly at 4:00 p.m. on the third Wednesday of each month, unless otherwise listed on the [Calendar](#).

The Technical Coordinating Committee (TCC) is comprised of staff from member and stakeholder agencies. The TCC provides technical recommendations to the CAMPO Executive Board. TCC meetings are held on the first Thursday of each month at the CAMPO offices at 10:00 a.m., unless otherwise listed on the [Calendar](#).

Title VI Coordinator

Key responsibilities of the Coordinator include:

- Maintaining knowledge of Title VI and related requirements.
- Attending civil rights training when offered by NCDOT, FHWA or other federal agencies.
- Administering the Title VI Nondiscrimination Program and coordinating implementation of this Plan.
- Making sure (training) internal staff and officials are familiar and complying with their Title VI training obligations as outlined in the Public Participation Plan. Keep a log of staff training for Title VI.
- Disseminating Title VI information internally and to the public, including in languages other than English.
- Presenting Title VI-related information to decision-making bodies for input and approval.
- Ensuring Title VI-related posters are prominently and publicly displayed.
- Developing a process to collect data related to race, national origin, sex, age, and disability to ensure traditionally disadvantaged populations are included and not discriminated against.
- Ensuring that non-elected boards and committees reflect the service area and environmental justice populations are represented.
- Promptly processing (receiving, logging, investigating and/or forwarding) discrimination complaints.
- Providing information to NCDOT, FHWA and FTA and cooperating during compliance reviews and investigations.
- Promptly resolving deficiencies to ensure compliance with Title VI nondiscrimination requirements.

If the Executive Director or Title VI Coordinator changes, the Title VI Policy Statement and USDOT Title VI Assurances, will immediately be updated, and an updated policy statement (and nondiscrimination agreement, if standalone) will be signed by the Executive Director.

Staffing

CAMPO currently employs a staff of 24, which consists of the following job categories:

- Executive Director
- Deputy Directors (2)
- Finance Director/Operations Manager
- LAPP Manager
- Wake Transit Program Manager
- GIS Manager
- Fiscal Analyst
- Public Engagement Planner/Title VI Coordinator
- Office Manager/Admin. Assist.
- Senior Transportation Planner (4)
- Transportation Planners (3)
- Data Scientist/Modeler (2)
- Data Scientist/GIS
- Senior Wake Transit Planner
- Wake Transit Planner
- TPAC Administrator
- Engineering Technician

TITLE VI POLICY STATEMENT AND NOTICE OF NONDISCRIMINATION

It is the policy of the **Capital Area Metropolitan Planning Organization (CAMPO)** to ensure that no person shall, on the ground of **race, color, national origin, Limited English Proficiency, sex, age, or disability, (and low-income, where applicable)**, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any CAMPO programs and activities, as provided by Title VI of the Civil Rights Act of 1964, the Civil Rights Restoration Act of 1987, and other pertinent nondiscrimination authorities.

If you feel you have been subjected to discrimination, you may file a complaint. Allegations of discrimination should be promptly reported to CAMPO's Title VI Coordinator.

Implementation (Dissemination)

- The above Policy Statement contains contact information for the Title Coordinator, and it will also serve as our notice to public.
- This statement will be signed by the Executive Director of the Capital Area Metropolitan Planning Organization, and re-signed whenever a new person assumes that position.
- The signed statement will be posted in the office lobby, in the Board Room, and at MPO hosted public meetings whenever possible.
- The signed statement and included in all written agreements.
- When CAMPO distributes federal funds to another government or enters into a contractual agreement with another organization, the statement will be included.
- The statement will be incorporated into Title VI training and acknowledgement activities.
- The statement will be posted or disseminated in languages other than English, when appropriate.
- Low-income will be applicable to our programs, policies and activities under Environmental Justice when determining if there will be disproportionately high and adverse effects.

TITLE VI: MINORITY AND LOW-INCOME POPULATIONS (MLI)

"No person in the United States shall, on the ground of race, color, or national origin be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance."

– Title VI, Civil Rights Act of 1964

This law is the basis for metropolitan planning organizations (MPOs) to verify that their programs are not creating a “disproportionate burden” on any one group. MPOs also check to see that the benefits of their programs are equitably distributed.

In addition to the 1964 Civil Rights Act, the following are also considered part of the MPO checks for fairness:

- Section 162 (a) of the Federal-Aid Highway Act of 1973 (23 USC 324) (gender),
- Older Americans Act (1965) and Age Discrimination Act of 1975 (age), and
- Section 504 of the Rehabilitation Act of 1973/Americans with Disabilities Act of 1990 (disability)
- Executive Order 12898 (1994), Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations. (minority, low-income)
- Executive Order 13166 (2000), assures non-discrimination based on limited proficiency in speaking, reading, or writing English (limited English)
- Executive Order 14008 (2022), establishing new environmental justice initiatives, focusing on transportation disadvantaged populations (minority, age, low-income)

Taken together, these requirements define an over-arching Title VI/Nondiscrimination Program. Although Environmental Justice (EJ), Title VI, Non-Discrimination, and Equity are distinct elements, collectively they can contribute to the development of an equitable transportation system. These elements are regularly mistaken and used interchangeably, thus, making it essential to understand their differences.

Environmental Justice focuses on identifying and addressing disproportionately high and adverse human health or environmental effects of an agency's programs, policies, and activities on minority populations and low-income populations to achieve an equitable distribution of benefits and burdens. This objective is to be achieved, in part, by actively adhering to the principles and practices of both Title VI and the National Environmental Policy Act (NEPA) during the development and implementation of transportation activities. **The classes covered by EJ vary slightly from those covered by Title VI and other nondiscrimination statutes.**

Title VI prohibits discrimination based on race, color, and national origin in programs and activities receiving federal financial assistance. "Nondiscrimination" is more inclusive than the Title VI statute as it covers additional classes of individuals and pertains to other civil rights authorities with which funding recipients must comply. Under the Title VI statute, protected classes include race, color, and national origin; **limited English proficiency is included within the class of national origin.** USDOT's (through the Federal Highways Administration (FHWA) and Federal Transit Administration (FTA)) Title VI program (in contrast to the Title VI *statute*) **expands the covered classes to include sex, age, disability and low-income.**

Equity in transportation seeks fairness in mobility and accessibility to meet the needs of all community members. This population group includes individuals in at least one of the following categories: Low Income, Minority, Elderly, Children, Limited English Proficiency, or Persons with Disabilities. It is important to note that transportation equity does not mean equal. An equitable transportation plan considers the circumstances impacting a community's mobility and connectivity needs and this information is used to determine the measures needed to develop an equitable transportation network. The graphic below illustrates the differences between equality and equity. **To attain an equitable transportation network, all components of Title VI, EJ, and Nondiscrimination must be considered.**

ENVIRONMENTAL JUSTICE (EJ)/COMMUNITIES OF CONCERN

CAMPO will identify each protected class and then show how they overlap geographically, specifying where there is a combination of the highest concentrations and largest number of protected class overlaps. These areas will be called “Communities of Concern” (CofC) and will be used to target engagement activities and evaluate the relative benefit/burden of transportation investments in the region in the Metropolitan Transportation Plan (MTP) or Transportation Improvement Program (TIP).

In 1994, President Clinton issued Executive Order (EO) 12898, Federal Actions to Address Environmental Justice (EJ) in Minority Populations and Low-Income Populations. To comply with the EO, federal agencies developed EJ guidelines for their funding recipients, including Federal Highway Administration (FHWA) Order 6640.23A. Accordingly, the Capital Area MPO will make achieving EJ part of its mission by identifying and addressing, as appropriate, disproportionately high and adverse human health and environmental effects of its programs, policies, and activities on minority populations and low-income populations.

EJ is the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income, with respect to the development, implementation and enforcement of environmental laws, regulations and policies. The three fundamental EJ principles that guide USDOT (affiliated) actions are:

- To avoid, minimize, or mitigate disproportionately high and adverse human health and environmental effects, including interrelated social and economic effects, on minority and low-income populations.
- To ensure the full and fair participation by all potentially affected communities in the transportation decision-making process.
- To prevent the denial of, reduction in, or significant delay in the receipt of benefits by minority and low-income populations.

In 2022, as part of President Joseph Biden’s Executive Order 14008, pushing Environmental Justice efforts further, added emphasis has been placed on meaningful engagement as well as focusing transportation investments on areas with populations and communities geographically identified as “transportation disadvantaged”. This has largely been an effort to use census and other demographic data to identify concentrations of EJ populations. The Capital Area MPO does this through the identification of “Communities of Concern”.

EJ applies to our policies, such as where public meetings will be held, **and our projects**, such as when we plan to construct or expand a facility. To achieve EJ, CAMPO's programs will be administered to identify target populations, conduct meaningful engagement, and avoid disproportionately high and adverse effects on minority populations and low-income populations by:

- 1) Identifying and evaluating environmental, public health, and interrelated social and economic effects of our programs, policies and activities;
- 2) Proposing measures to avoid, minimize and/or mitigate disproportionately high and adverse environmental and public health effects, and interrelated social and economic effects, and providing benefits and opportunities to enhance communities, neighborhoods, and individuals affected by CAMPO programs, policies and activities, where permitted by law;
- (1) Considering alternatives to proposed programs, policies, and activities, where such alternatives would result in avoiding and/or minimizing disproportionately high and adverse human health or environmental impacts to minority and/or low-income populations;
- (2) Eliciting meaningful public engagement opportunities and considering the results thereof, including soliciting input from affected transportation disadvantaged populations in considering alternatives before making a final decision;
- (3) Collecting demographic data to document public engagement in the decision-making process; and,
- (4) Adding an EJ section to MPO plans and studies including demographic data, public engagement plans, and public engagement summaries, such as Long Range Plans, Public Participation Plans, and non-technical Special Studies.

The following are representative of the types of public engagement techniques CAMPO uses:

- ✓ Provide ample opportunity through effective public notices and outreach activities to engage specific segments of the population or their respective representation in the early planning phases of a project;
- ✓ Provide access to information through clear, consistent, simple language across communication vehicles both digital and in-person, passive (i.e. flyers at bus stops) and direct (i.e. info card handed to a person; presentation to a group);

- ✓ Identify concentrations of traditionally disadvantaged populations by mapping demographic data;
- ✓ Incorporate environmental justice considerations into the Metropolitan Transportation Plan (MTP) and Transportation Improvement Plan (TIP) criteria to ensure these issues are addressed in the early phases of the planning process;
- ✓ Utilize geographical information systems (GIS) to map transportation investments in relation to concentrations of traditionally disadvantaged populations with an intent to identify, highlight and analyze projects within these areas; respective to the Metropolitan Transportation Plan (MTP or Transportation Improvement Program (TIP);
- ✓ Utilize the “Interested and Affected Parties Contact List” to identify all interest groups and relevant agencies with the intent to foster relationships and establish direct contact for feedback on federally funded transportation projects/programs from these parties; and,
- ✓ Investigate the impacts of transportation projects on these populations and work with interest groups and/or local representatives to explore alternatives.

EJ analyses will remain on file indefinitely, and copies will be provided to NCDOT, USDOT and affiliates upon request, during compliance reviews or complaint investigations.

As part of EJ, the **methodology on the following pages is used by the Capital Area MPO for identifying Communities of Concern.**

DATA COLLECTION/ANALYSIS/REPORTING

Data collection, analysis and reporting are key elements of a successful Title VI strategy. To ensure that Title VI reporting requirements are met, the Capital Area MPO will collect and maintain data on potential and actual beneficiaries of our programs and services. This section contains relevant population data for our overall service area. The data provides context for the Title VI Nondiscrimination Program and will be used to ensure nondiscrimination in public outreach and delivery of our programs. Please refer to demographic tables/maps on Race & Ethnicity, Age & Sex, Disability/Households without cars, Poverty, and Household Income.

POPULATION LOCATIONS

Recipients of federal funds are required to identify the characteristics and locations of populations they serve, particularly by race/ethnicity, age, sex, low-income and limited English proficiency. We will document this narratively or through maps that overlay boundaries and demographic features on specific communities, and provide this information to NCDOT, upon request. (See Demographic Maps)

The Capital Area MPO uses Block Group-level data from the US Census American Community Survey to look for concentrations of protected classes. These “communities of concern” (CofCs) represent where the greatest likelihood of encountering these populations exists geographically. This is not the only way the MPO will identify those populations, but for regional-scale efforts this allows the MPO use outreach resources most effectively. Local planning efforts will require more in-depth research, including site visits, local planners, language assistance resource contacts, and street-view inventories.

REGIONAL DEMOGRAPHIC PROFILES

There are three statistical tools to note for all the protected classes we evaluated:

- 1) Use of Census Block Groups in the 2-MPO region as the geographic unit. This is because they are updated each year, and some data are only available at this scale. It also helps compare urban, suburban, and rural areas in an “apples to apples” way.¹

¹ The way block groups are drawn, it helps “spatially normalize” the data.

- 2) Choice of which “average” we use. By choosing to use the “median” as our measure, it gets around any extremes that may exist within the block group. By using a median, the primary makeup of the block group is reflected because extremes will not have as much impact.

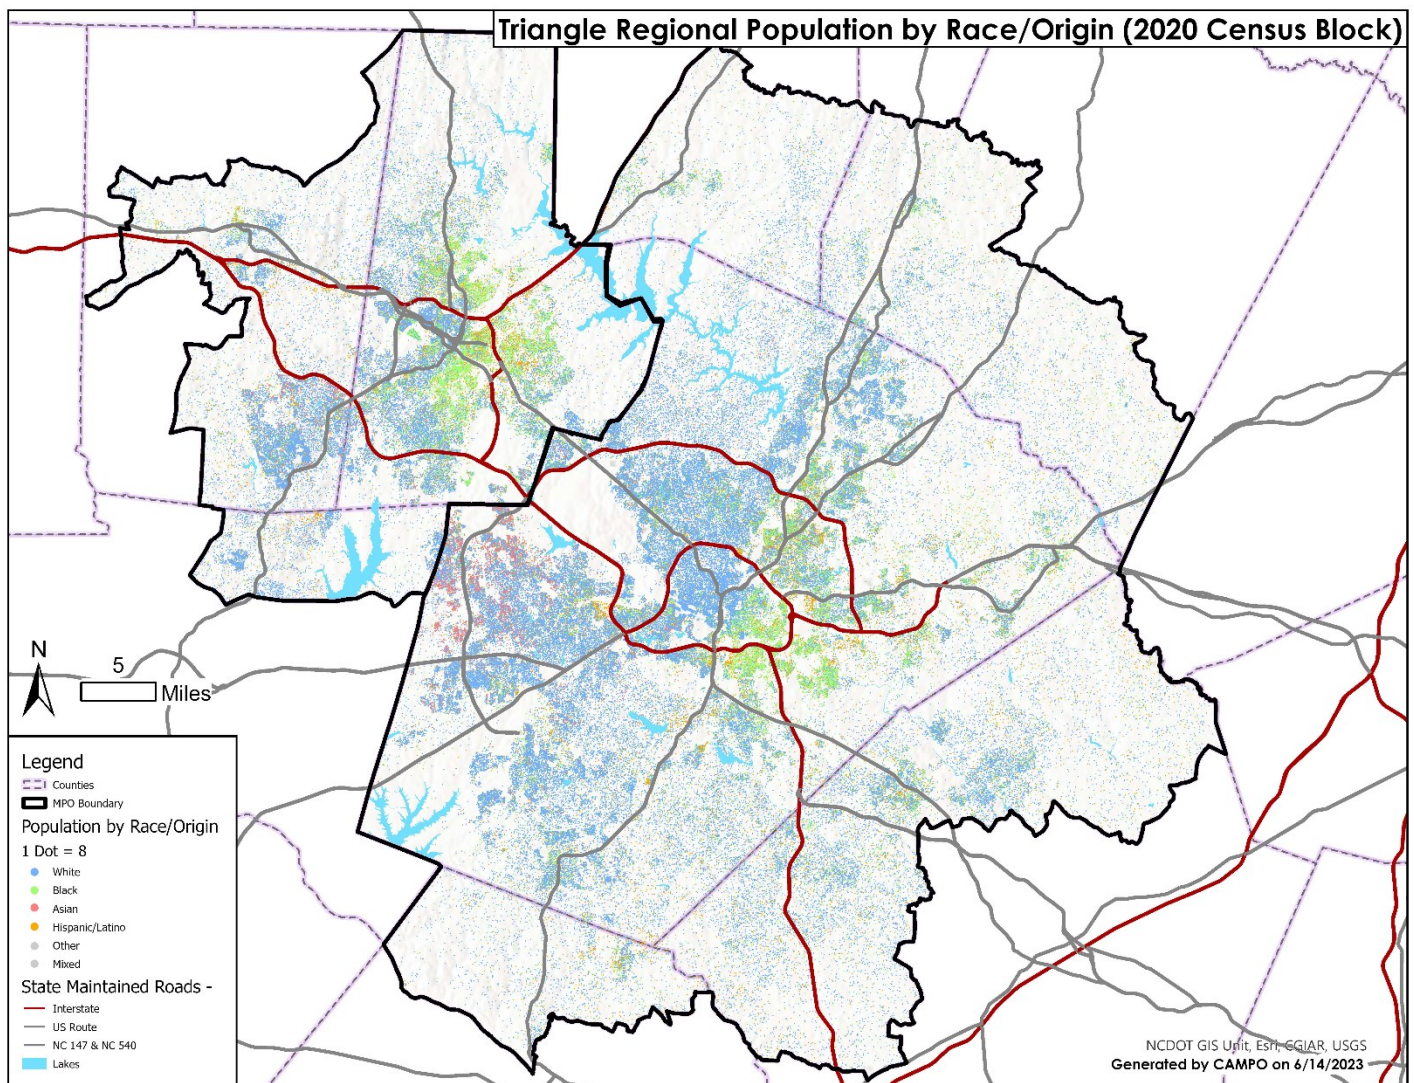

- 3) Measuring each item evaluated as a percentage. This also helps to create an “apples-to-apples” comparison for urban, suburban, and rural parts of the region.

Percentiles are just like the median “average” measure; the difference is instead of using the halfway point (50%), a percentile can be adjusted. If you just want the top 25% of whatever you are measuring, you set the percentile to 75. If you wanted the top 10%, you set the percentile to 90, et cetera. Our region has 1,090 block groups, so each measure will take the highest 272 block groups (top 25%).

Demographic Profiles: Race, Color, & Origin

Under the Title VI Program populations, CAMPO first looked at Race, Color, and National Origin. Initially, we looked at rolling all the components of these classes into a single measure. The nature of our region made it more effective to measure the most prevalent groups separately. Since the Census does not gather data on “Color” separately, we use Race to stand for both Race and Color. National Origin is treated separately due to its overlap with Race.

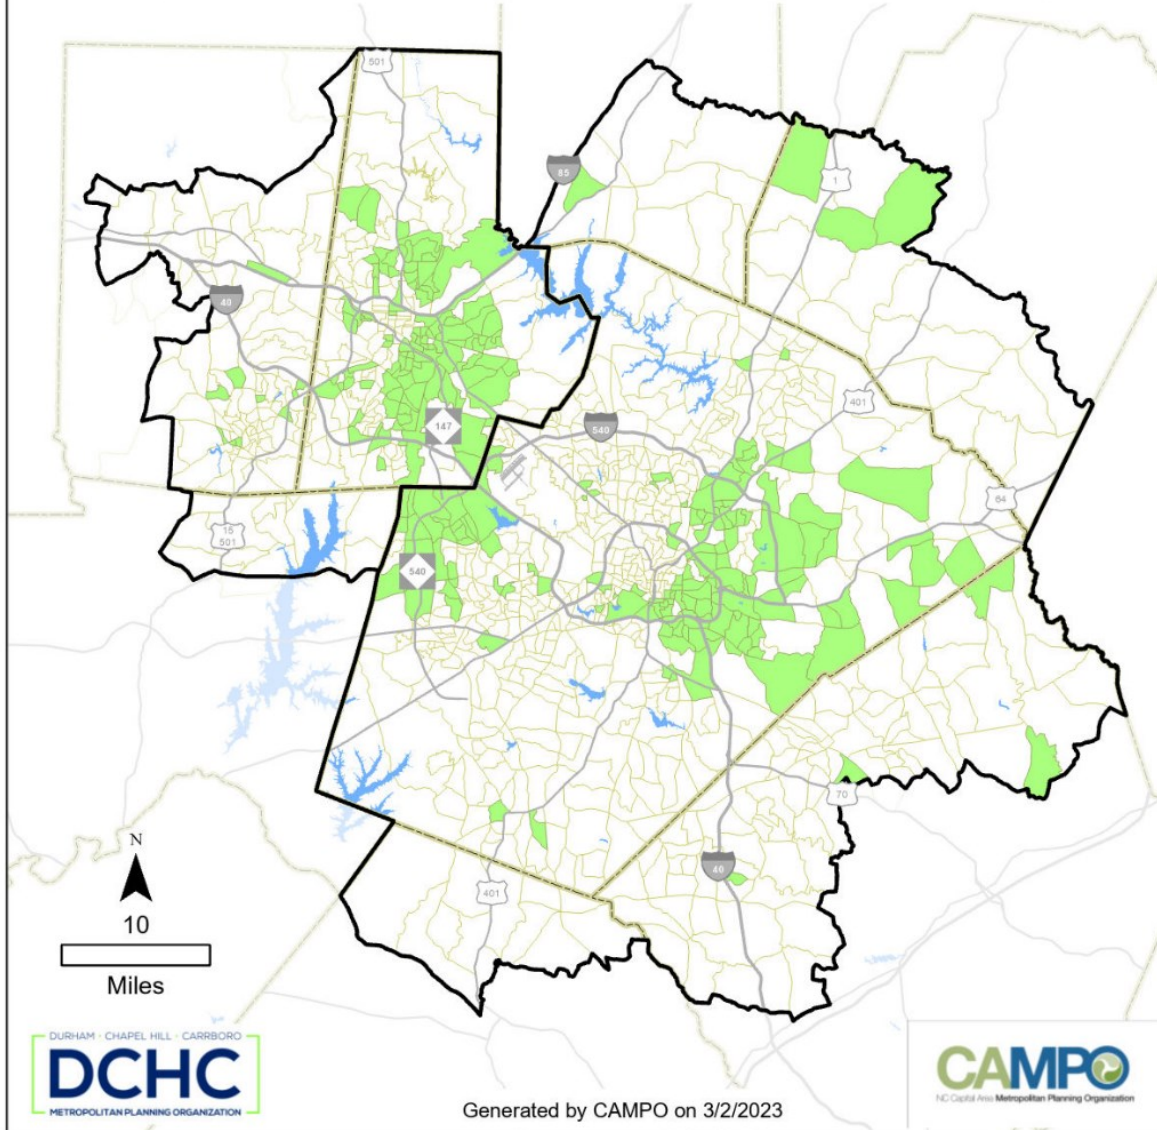

CAMPO used the following measures for Race and Origin:

- 1) Non-white race: it includes all race categories that are not white in the census. The two most prevalent in the region are black and Asian. The cutoff for inclusion is $\geq 51.48\%$ of the people in a block group identifying as non-white.
- 2) Hispanic/Latino Origin: if a block group is 14.8% Hispanic/Latino or above, it is included as a Community of Concern (CofC). Note that someone can be a white race, black race, or any race category and still identify as having Hispanic or Latino origin. For that reason, it is treated separately from race.

Top 25% of Non-White Race Census Block Groups

This map shows where concentrations of populations of non-white race exist in the region at or above the 51.48% threshold. The threshold represents block groups where at least 51.48% of the people living there identify as a non-white race for the Census.

51.48% is the cutoff to be in the highest ranking 272 block groups in the region--the top 25% out of 1,090 total block groups. Any block groups with zero populations are then removed (ex. RDU Airport).

Note that Hispanic/Latino origin is treated separately from race.

DEMOGRAPHIC PROFILES: LOW-INCOME

Under the Title VI Program Coverage umbrella, CAMPO considers low-income as a measure to use for CofC's based on Executive Order 12898 and subsequent Federal guidance.

Poverty is calculated by the US Bureau of the Census based on a set of rules created in the 1960's by the Department of Agriculture. "Below the poverty line" is actually a sliding scale for different age groups and family sizes. Our data were normalized so that all of the people in a block group could be compared equally.

We defined low-income as a combination of those below the federal poverty line and those near the poverty line (below 150% of the poverty line). If 24.7% of a block group meets the criterion, that block group is included as a CofC for regional outreach and analysis based on the 75th percentile.

Top 25% of Low Income Census Block Groups

Since so many people are one paycheck away from being a poverty statistic, we defined low income as a combination of those below the federal poverty line and those near the poverty line. "Near" the poverty line are those with an income below 150% of the poverty line.

This map shows where concentrations of populations low income individuals exist in the region at or above the 24.7% threshold. The threshold represents block groups where at least 24.7% of the people living there meet the low income criteria.

As general background, the U.S. **median household income** for 2010 was \$51,914 and in 2020 it increased to \$64,994. The median household income for the two MPO regions' counties also increased as shown below:

The official **poverty** threshold depends on family size. For a family of four, the national 2019 poverty line was an income of \$26,172 per year. Using that figure, within the MPO area, the following percentages of persons fell below the poverty level:

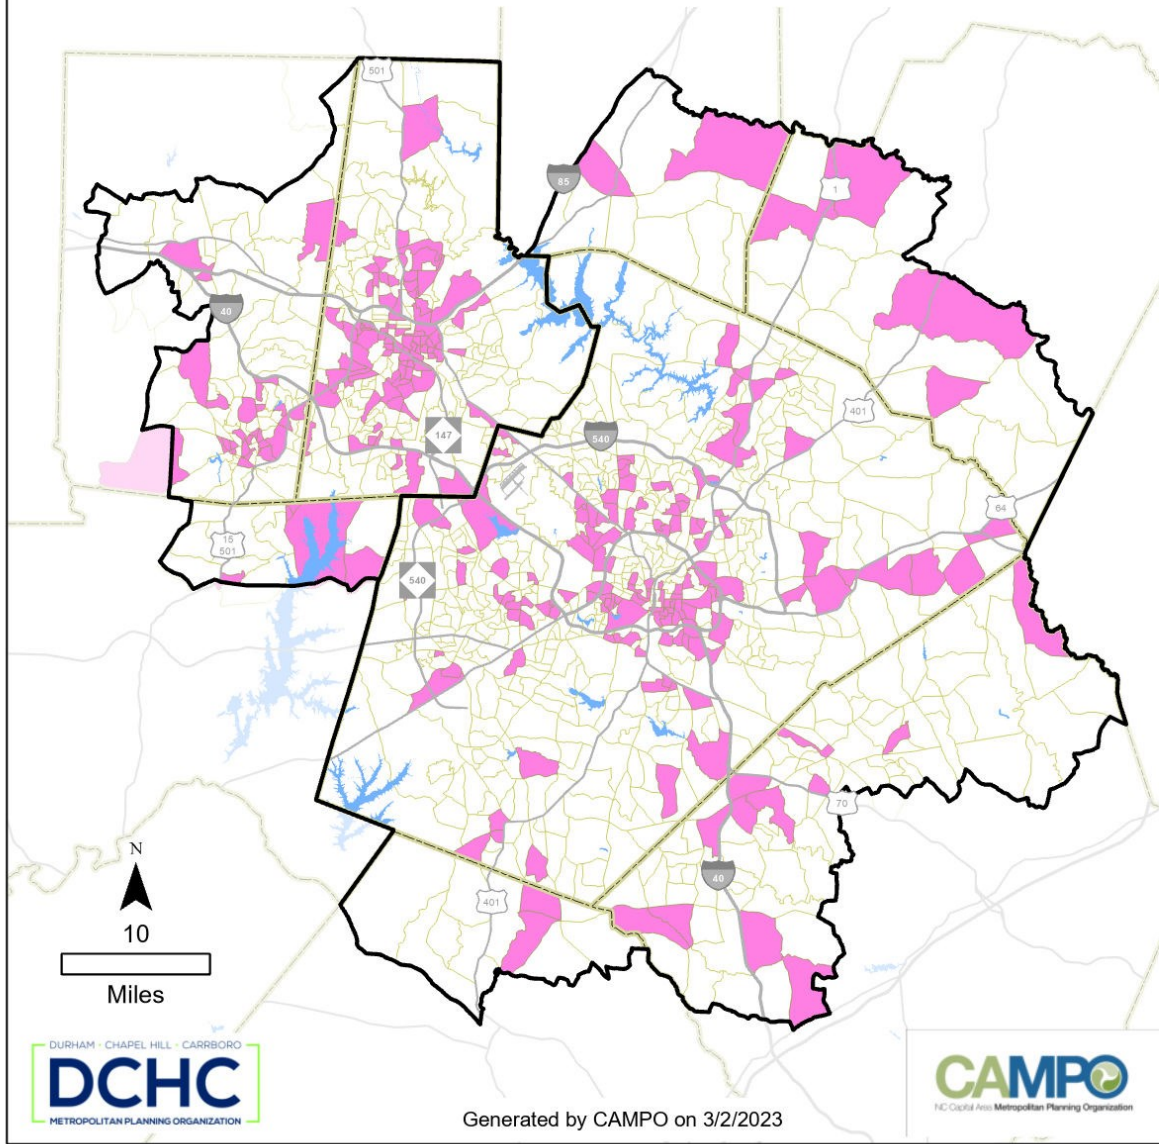

DEMOGRAPHIC PROFILES: ZERO CAR HOUSEHOLDS

Under the Title VI Program, CAMPO considers Zero-car Households as a surrogate for the transportation needs of disabled persons. A review of disabled status persons shows that with a few exceptions in the most rural block groups, there is an even distribution across the region for this measure. This meant that as a standalone measure, Disability did not yield a pattern that allows for targeted outreach and a meaningful analysis. In other words, since it is spread evenly across the region, there are not specific geographic locations that can be targeted using the “Disability status” from the data. This is further described under Methodology below.

After meeting with the regional partners, it was determined that, where transportation is concerned, zero-car households was an available measure that might work. So, if 6.3% of a block group meets the criterion, that block group is included as a CofC for regional outreach and analysis based on the 75th percentile.

Top 25% of Zero-Car Household Census Block Groups

This map shows where concentrations of populations of households with no automobile transportation exist in the region at or above the 6.3% threshold. The threshold represents block groups where at least 6.3% of households reported having no access to a car.

6.3% is the cutoff to be in the highest ranking 272 block groups in the region--the top 25% out of 1,090 total block groups. Any block groups with zero populations are then removed (ex. RDU Airport).

DEMOGRAPHIC PROFILES: AGE

AGE: OVER 70 YEARS OLD

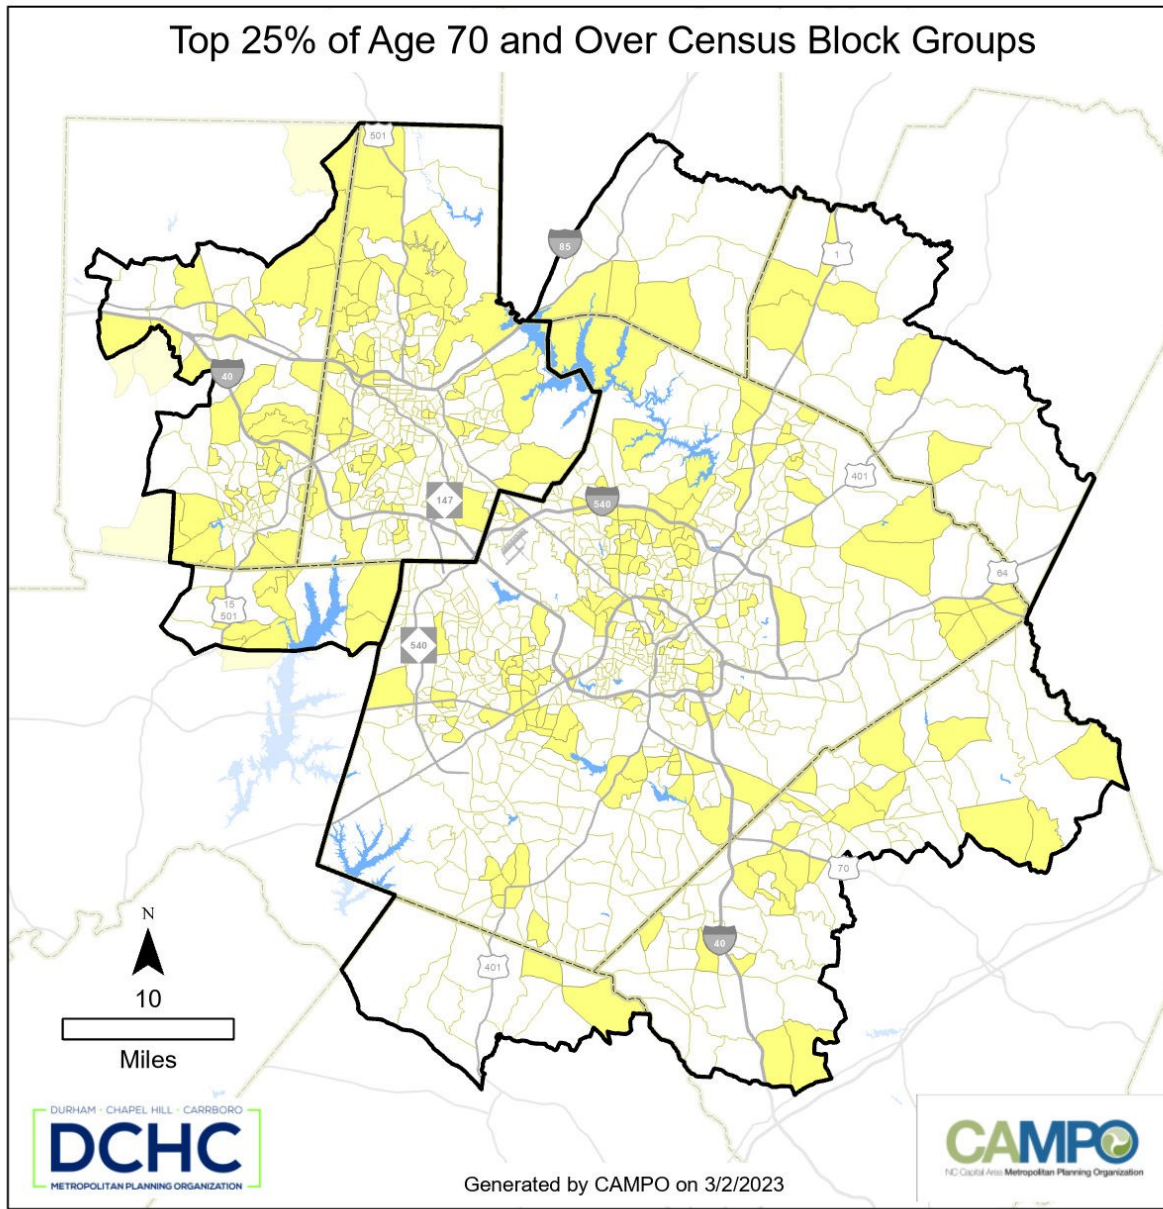

The Older Americans Act of 1965 and the Age Discrimination Act of 1975 made age one of the things we consider when identifying special populations. We looked at populations likely to have a large share of non-drivers—those over 70 years old.

For aging drivers, a person's age is not by itself an indicator of their driving ability. There are people driving safely well into their 90s, while there are others in their 50s and 60s who are dangers to themselves and others when behind the wheel. Physical and mental condition and ability are the main considerations. This includes vision, physical ability, physical activity, diseases, and impacts of medications, etc. Because of the potential loss of their ability to drive, people over 70 were included as an indicator for special consideration for transportation planning. If 11.98% of a block group meets the criterion, that block group is included as a CofC for regional outreach and analysis based on the 75th percentile.

AGED: UNDER 18 YEARS OLD (YOUTH)

While “youth” concentrations are not yet a required environmental justice group by the Federal government when calculating “transportation disadvantaged”, based on current implementation of the Justice 40 Initiative and Executive Order 14008, it is anticipated that this may be a population to include in the near future. For this reason, the following map of census block groups with high concentrations of persons under the age of 18 years old is being included so that it may be utilized in planning public engagement and outreach. The CAMPO methodology for identifying Communities of Concern may be updated in the next few years to include census blocks with the top 25% concentrations of youth population, based on Federal guidance. For now, it is not used in the mapping of CoCs.

This map shows where concentrations of populations of persons 70 years old and older exist in the region at or above the 11.98% threshold. The threshold represents block groups where at least 11.98% of the people living there are at least 70 years old at the time of the survey.

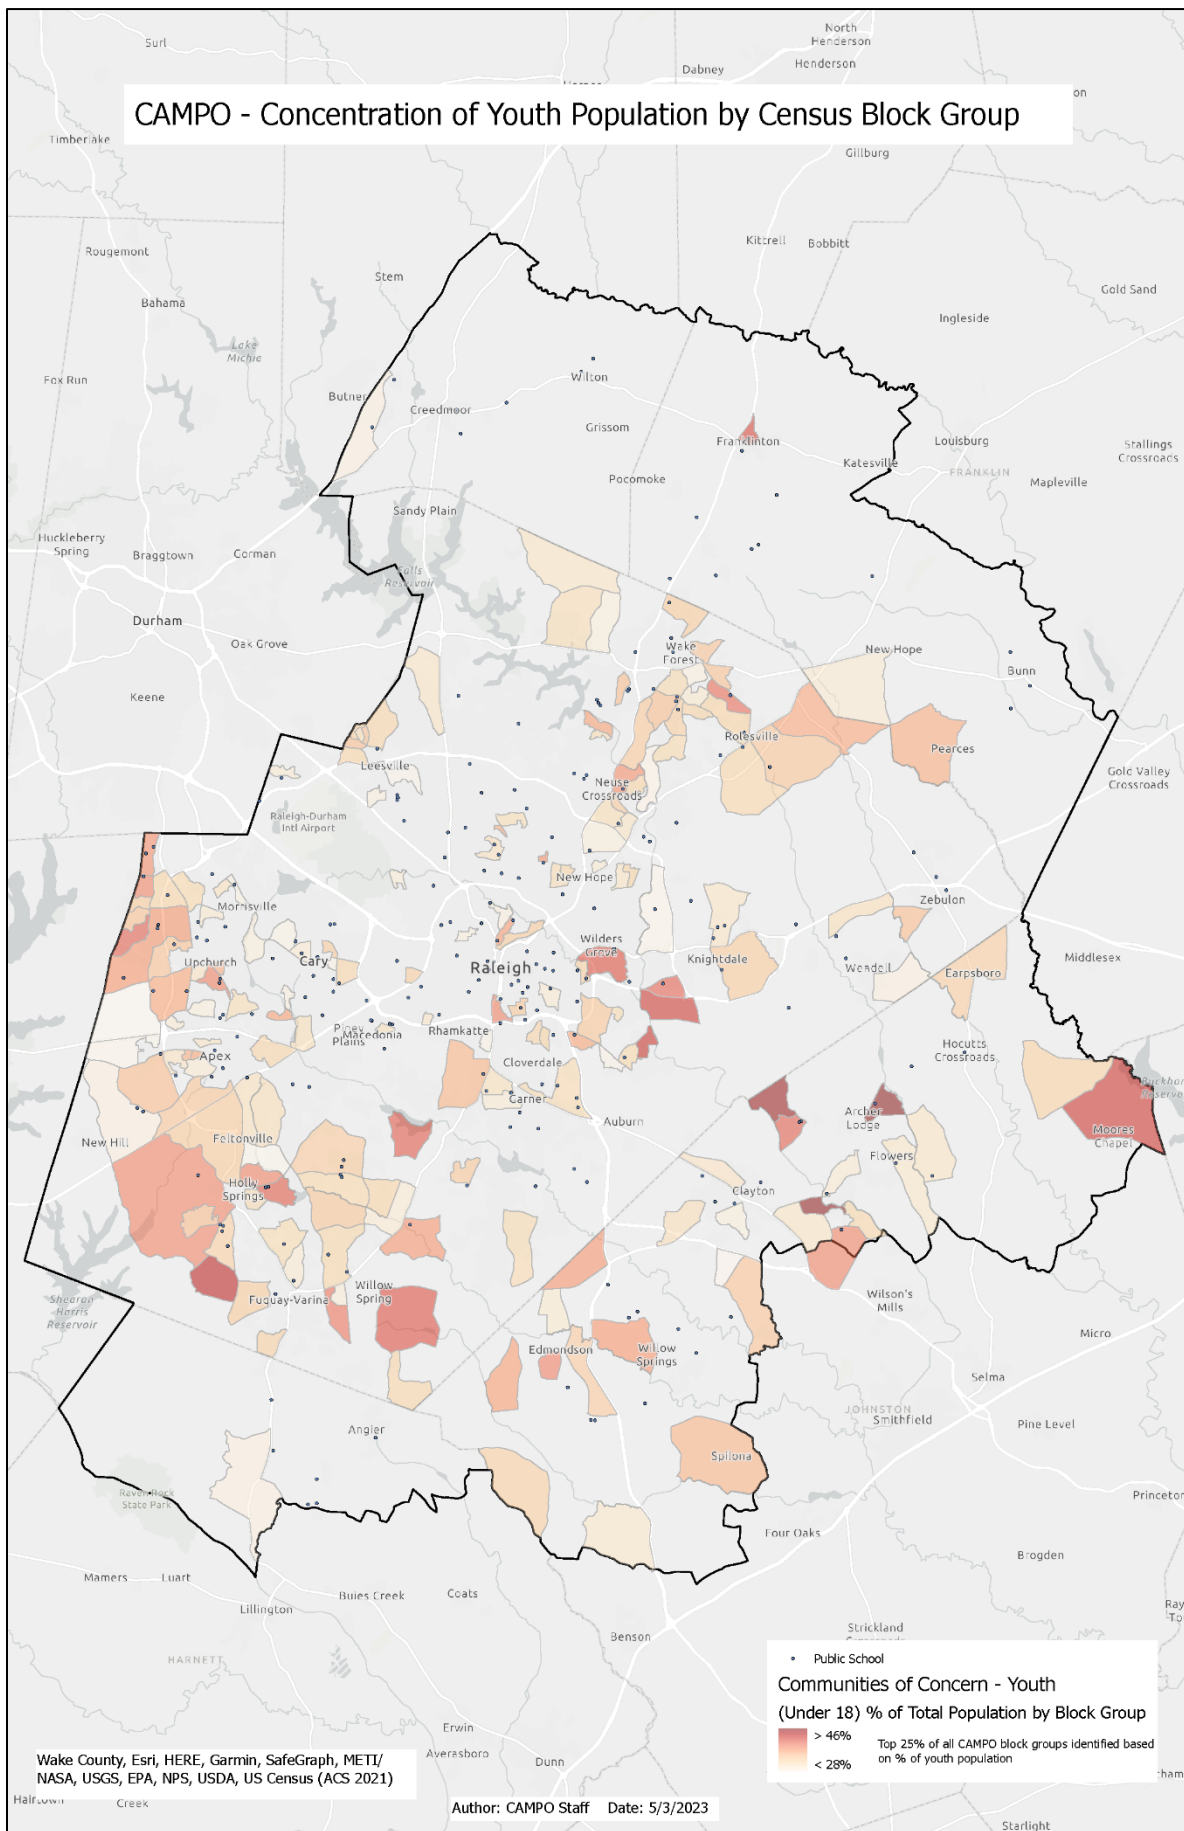

11.98% is the cutoff to be in the highest ranking 272 block groups in the region--the top 25% out of 1,090 total block groups. Any block groups with zero populations are then removed (ex. RDU Airport).

DEMOGRAPHIC PROFILES: LIMITED ENGLISH PROFICIENCY

While limited English proficiency (LEP) is an inclusive term that includes people who speak another language and “speak English less than very well or not at all,” it can also include individuals with literacy or vision challenges. The census block groups that trigger for LEP are shown here and followed by the final map showing all the overlaps of what was measured. After that, there is a full break out of the Limited English Proficiency Outreach as its own chapter. If 7.82% of a block group meets the criterion, that block group is included as a CofC for regional outreach and analysis based on the 75th percentile.

Top 25% of Linguistically Isolated Census Block Groups

This map shows where concentrations of populations of persons who do not speak English or speak English "less than very well" exist in the region at or above the 7.82% threshold. The threshold represents block groups where at least 7.82% of the people reported speaking English "less than very well" or worse.

7.82% is the cutoff to be in the highest ranking 272 block groups in the region--the top 25% out of 1,090 total block groups. Any block groups with zero populations are then removed (Ex. RDU Airport).

The Capital Area Metropolitan Planning Organization, in cooperation with other mapping organizations, is committed to offering its users accurate, useful, and current information about the Region. Although every effort has been made to ensure the accuracy of information, errors and conditions originating from physical sources used to develop the database may be reflected in the map and/or data supplied. The user must be aware of data conditions and bear responsibility for the appropriate use of the information with respect to possible errors, original map scale, collection methodology, currency of data, and other conditions specific to certain data.

DEMOGRAPHIC PROFILES: GENDER

As mentioned in the introduction, the spatial distribution of gender is relatively equal throughout the region other than a few group quarters (college dormitories, etc). The vast majority of the region hovers around 50%, or at least in the middle 1/3. Due to this, it is not used in mapping CofCs.

DEMOGRAPHIC PROFILES: FINAL COMMUNITIES OF CONCERN MAP

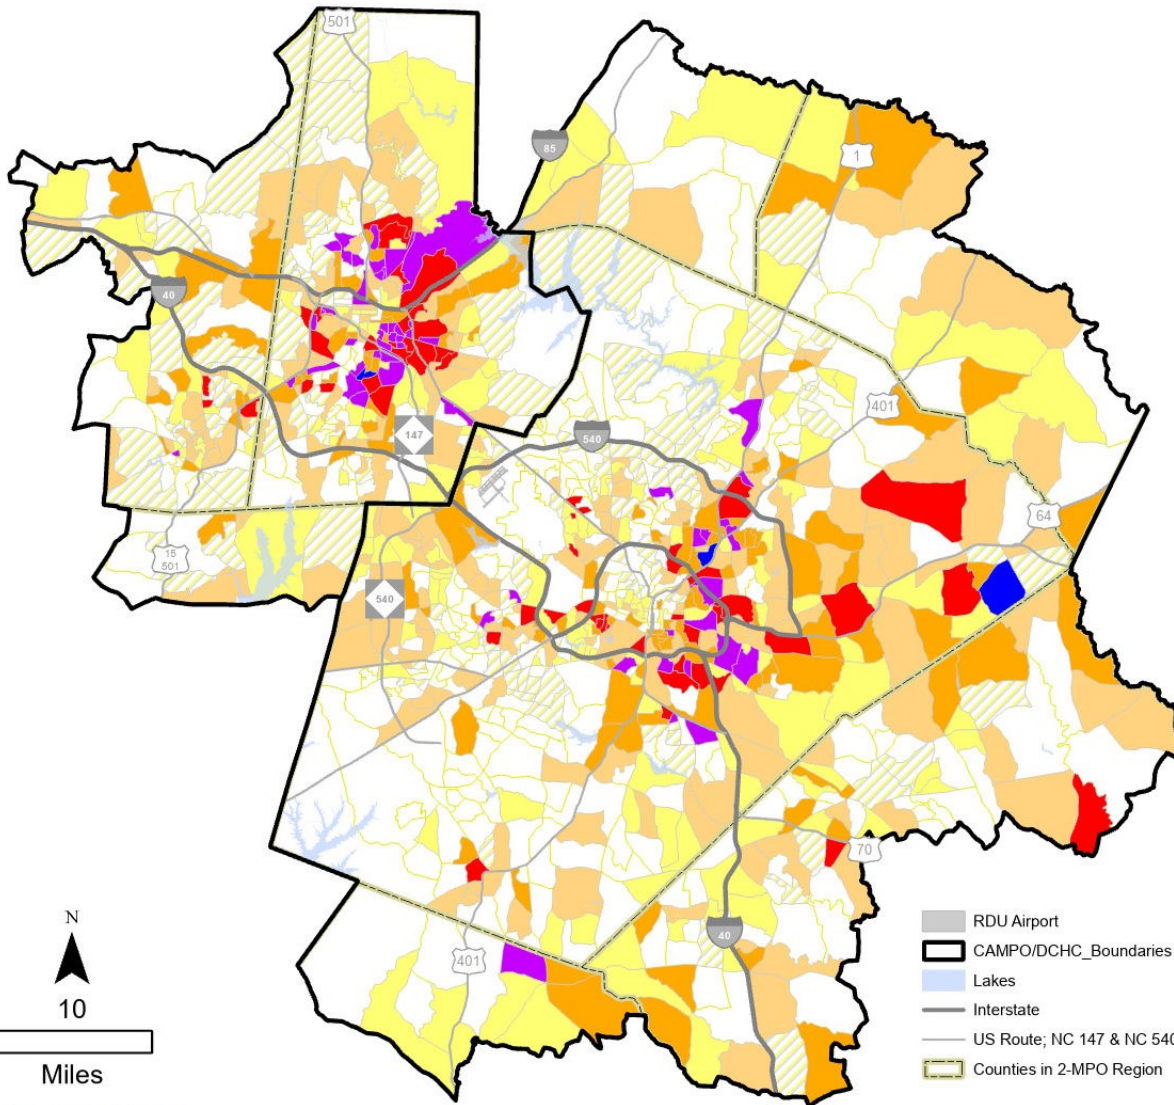

Once all the places with concentrations of likely Title VI and EJ populations are mapped, one map is created that **shows where the different categories we measure overlap** one another. To recap, it will show where the following exist in concentrations:

- Non-White Race
- Hispanic/Latino Origin
- Individuals Making less than 150% of the Federal Poverty Rate
- Individuals who speak English “Not at all” or “Not very well”
- Zero-car households
- Individuals Age 70 and older

Where age is the only trigger, those areas are shown differently because age does not cluster spatially like many of the other indicators.

Regional 75th Percentile Number of Indicators Overlap

Generated by CAMPO on 3/3/2023
Data source 2017-2021 ACS

This map is meant to be a regional-scale tool for the MPOs to use in regional-scale planning and regional-scale outreach. It does not identify every community that might meet Title VI protected status, but seeks to identify where there are concentrations of Title VI and other populations subject to protections under the law and associated policies. When working at a more local scale, additional identification may be needed.

The map shows the overlap of 6 indicators at the Census Block Group: Non-white race, Hispanic/Latino Origin, Individuals below 150% of the federal poverty threshold, Linguistic Isolation, Zero-car Households, and Age 70 and over. Each indicator has a threshold calculated for the 75th percentile (top 25%), and any Block Group that meets or exceeds the threshold is included.

The Capital Area Metropolitan Planning Organization, in cooperation with other mapping organizations, is committed to offering its users accurate, useful, and current information about the Region. Although every effort has been made to ensure the accuracy of information, errors and conditions originating from physical sources used to develop the database may be reflected in the map and/or data supplied. The user must be aware of data conditions and bear responsibility for the appropriate use of the information with respect to possible errors, original map scale, collection methodology, currency of data, and other conditions specific to certain data.

Number of Overlapping Indicators

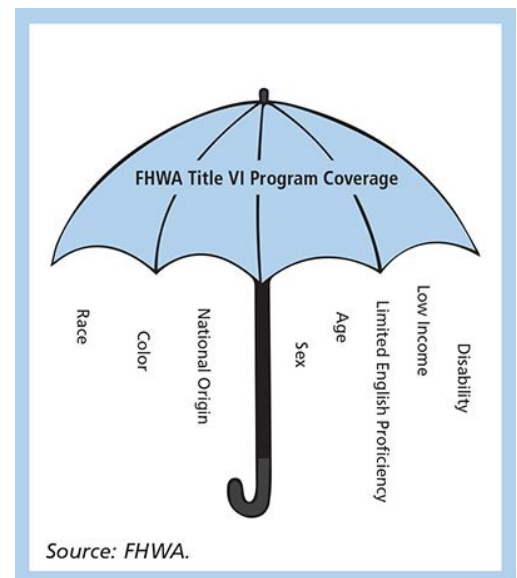

METHODOLOGY FOR DETERMINING IF A BLOCK GROUP IS A REGIONAL-SCALE COMMUNITY OF CONCERN

HOW TO DETERMINE A COMMUNITY OF CONCERN

Capital Area MPO staff looked at many different statistical methods to get at the fundamental question, “What is a community of concern?” With the end in mind, there were 3 principles that guided how to define if an area was “in” or “out” statistically:

- 1) If everyone is special, no one is special; we do not want to set the threshold too low. Ideally around 60% of the region should not trigger 2 or more measures; around 75% one or more.
- 2) Be as inclusive as possible in light of the above; we do not want to leave anyone out without good reason.
- 3) The final analysis should yield a pattern that allows for targeted outreach and a meaningful analysis of transportation investments.

CAMPO also tried to match the data that are available to the protected classes under the Title VI Program Coverage umbrella. Statistically, choosing what gets measured has tremendous impact on the outcome. CAMPO coordinated with regional stakeholders involved in the statistical definition of what goes into identifying CofCs in 2016. DCHC MPO, Triangle J Council of Governments and NCDOT Community Studies staff reviewed existing methodologies and a draft proposal from CAMPO using percentiles to determine a threshold for “in” or “out”. Then the group met with FHWA and NCDOT’s Office of Civil Rights.

In looking what to measure, some things came to light:

- Even though gender is a protected class, the even distribution of men and women did not make it a useful measure geographically. As such, it is the one protected class that was not used at all for determining CofCs.
- The same was true for disability in terms of where people are, but for the people affected the most by transportation investments, the group supported using Zero-car Households as a surrogate measure.
- Using a composite “minority” measure may miss some key groups. As an example, a block group that might be included for “Black alone” only needs around 32% of the block group

to identify as Black. In a single minority measure, the threshold is around 57%, and if no other minorities are present this might miss too many people that need to be included. The final selection of how to measure led to using “Non-white Race” and “Hispanic/Latino Origin” as separate variables. Some block groups with Asian minority presence that may not meet the combined race threshold for minority trigger under “Linguistic Isolation” and thus be included.

It is important to understand that these are regional-scale, planning level proxies for actual EJ communities. When working with individual projects or specific outreach efforts, this analysis is just a guidance or screening tool to begin the identification of the actual communities. CAMPO is committed to understanding and considering the needs/interests of individuals, groups, and communities that are traditionally disadvantaged by the transportation system policies and investments.

The MPO may also utilize other screening tools in order to identify traditionally disadvantaged communities. Two examples are:

- NCDOT’s recently released [“Transportation Disadvantaged Index Dashboard and Screening Tool”](#)
- USDOT’s recently released [“Transportation Disadvantaged Census Tracts Map”](#)

Both tools are still being tested and updated so, for now, CAMPO has determined that the CoCs map provides more exact identification of transportation disadvantaged communities within the MPO area. Currently, the NCDOT and USDOT tools are used most commonly by state and federal officials for prioritizing and programming grant awards. As these and other tools become more refined and additional guidance or regulations are released, CAMPO will review whether to switch for identification of communities of concern - specifically for the MTP and TIP equity analyses. Use of alternative tools and dashboards for the planning of public engagement and outreach activities is acceptable, while the CoCs maps will be the primary guide to identify benefits and disproportionately negative impacts on minority and low-income populations and communities.

Limited English Proficiency (LEP) Plan

LIMITED ENGLISH PROFICIENCY

The Limited English Proficiency (LEP) policy guidance provided by the U.S. Department of Transportation (USDOT) (see attached pages A-1 and A-2) is to clarify the responsibilities of recipients of federal financial assistance from the USDOT and assist them in fulfilling their responsibilities to LEP persons, pursuant to Title VI of the Civil Rights Act of 1964, and other implementing regulations. It was prepared in accordance with Title VI of the Civil Rights Act of 1964, 40 42 U.S.C. 2000D, and its implementing regulations providing that no person shall be subjected to discrimination on the basis of race, color, or national origin under any program or activity that receives federal financial assistance.

LIMITED ENGLISH PROFICIENCY (LEP): EXECUTIVE ORDER 13166

Executive Order 13166, improving access to services for persons with limited English proficiency, reprinted as 65 FR 20121 program (August 16, 2000), directs the Federal agency that is subject to the requirements of Title VI to publish guidance for its respective recipients clarifying that obligation. Executive Order 13166 further directs that all such documents be consistent with the compliance standards and framework detailed as part of justice and policy guidance entitled Enforcement of Title VI of the civil Rights Act of 1964 – National Origin Discrimination Against Persons with Limited English Proficiency (see 65 FR 50123, August 16, 2000, USDOJ’s General LEP and other Guidance). Disparate treatment based on a person's inability to speak, read, write, or understand English may be a type of national origin discrimination. It does not apply to illiterate English speakers.

The LEP Plan is in place to ensure access to the planning process and information published by the MPO for persons who do not speak or read English proficiently. The term LEP, describes individuals who do not speak English as their primary language and who have a limited ability to read, speak, write, or understand English.

LIMITED ENGLISH PROFICIENCY: DEFINED

Language and literacy barriers prohibit people who identify as LEP from obtaining services and information relating to transportation services and programs. Because LEP populations are not able to read instructions or correspondence written in English and may not understand verbal information, they often are not aware of regulatory requirements and legal implications of the services they seek. It is essential that MPO staff and other recipients or sub-recipients of federal funds become informed about their diverse clientele from a linguistic, cultural, and social perspective. These individuals should become culturally competent, so they can encourage

vulnerable LEP/minority populations to access and receive appropriate transportation services with more knowledge and confidence.

What is low literacy? What is limited English proficiency? According to the Census data, in 2019, approximately 22 percent of the U.S. population 5 years old and over spoke a language other than English at home, up from 18 percent in 2000. And, among those households, almost 20% are considered “limited English-speaking”, or households in which there are no members aged 14 or over who speak only English or speak English “very well”. LEP individuals have low English literacy and may or may not be literate in their primary language. In many cases, there is a direct correlation between low literacy, limited English proficiency, low educational attainment, and low-income.

USDOT guidelines require that recipients of federal financial assistance provide “meaningful access to programs and activities” by giving LEP persons adequate and understandable information and allowing them to participate in programs and activities, where appropriate. The MPO will take “reasonable steps” to remove barriers for LEP individuals. Once identified, the MPO will make every reasonable effort to ensure the LEP populations have timely and inclusive access to its information and processes.

LEP: PLAN SUMMARY/FOUR FACTOR ANALYSIS

As a recipient of federal funding, the MPO must take reasonable steps to ensure meaningful access to the information and services it provides. As noticed in the Federal Register, Volume 70, Number 239, Wednesday, December 14, 2005, there are **four factors** to be considered in determining reasonable steps:

1. The number and proportion of LEP persons in the eligible service population;
2. The frequency with which LEP persons come in contact with the program or activity;
3. The importance of the program services/activities to the LEP persons; and,
4. The resources available to the recipient and costs.

USDOT policy guidance gives recipients substantial flexibility in determining what language assistance is appropriate based on a local assessment of the four factors listed above. The following is an assessment of the need in the Capital Area MPO in relation to the four factors and the transportation planning process.

LEP: NUMBER & PROPORTION OF LEP PERSONS IN THE ELIGIBLE SERVICE POPULATION

The NC Capital Area MPO (CAMPO) planning area consists of Wake County and portions of Franklin, Granville, Harnett, and Johnston Counties. The first step toward understanding the profile of individuals who could participate in the transportation planning process is a review of census data. The Census data from the 2017-2021 American Community Survey indicates that in all MPO planning areas, English is the primary language spoken at home. Census data for individual cities is not readily available. Table 1 displays the general characteristics, language, estimated population, and percent of individuals who would be classified as LEPs by counties that are part of the CAMPO area.

Spanish continues to be the primary language that triggers the need for targeted outreach and proactive translation of materials for both MPOs. The 2017-2021 ACS data estimates almost 49,000 native Spanish speakers who speak English "Less than very well" in the 5-county MPO region. That is 3.27% of the CAMPO area population.

LEP: FREQUENCY WITH WHICH LEP INDIVIDUALS COME IN CONTACT WITH PROGRAMS OR ACTIVITIES

Although targeted specifically at outreach events, current contact with LEP individuals is relatively infrequent but our commitment to serve this group is a priority. In recent years, during public engagement phases for both special studies and the development of the Metropolitan Transportation Plan, the most common engagement tactics have included: translation of surveys into Spanish, translation of primary/summary outreach materials in Spanish, and translation of webpages in language of participant's choice. In areas with more concentrated LEP populations, LEP individuals sometimes attend the MPO events with English-speaking family members, or our community and agency partners at these events are bilingual and translate as needed. MPO staff have also increased the number of tabling events at businesses with a high frequency of Spanish speaking customers and cultural festivals and markets with high volumes of Spanish speaking, and Asian-American, attendees.

To date, no request had been made for either individuals or groups directly to the MPO for Spanish or other language interpreters or publications. Nevertheless, arrangements have been made with the Town of Cary for a list of vendors who can provide translation and interpretation services in languages other than English to be available, if needed.

LEP: THE IMPORTANCE OF THE SERVICE PROVIDED BY THE PROGRAM

CAMPO programs use federal funds to plan for future transportation projects and, therefore, do not include any service or program that requires vital, immediate, or emergency assistance such as medical treatment or services for basic needs, like food or shelter. However, the MPO must ensure that all segments of the population, including LEP persons, have been involved, or have the opportunity to become involved, in the transportation planning process. The impact of proposed transportation investments on LEP is part of the evaluation process for use of federal funds in three major areas: 1) an annual unified planning work program, 2) a transportation improvement program, 3) a long-range transportation plan covering 20+ years. Inclusive public participation is a priority in other MPO plans studies and programs, as well. The impacts of transportation improvements resulting from these planning activities do have an impact on all residents. Understanding and involvement are encouraged throughout the process. The MPO is concerned with input from all stakeholders, and every effort is made to make the planning process as inclusive as possible.

Progress towards project planning and construction under the responsibility of local or state jurisdictions and transportation agencies is not within the MPO's authority. These state and local organizations have their own policies to ensure LEP individuals can participate in the process that shapes where how and when a specific transportation project is implemented.

LEP: RESOURCES AVAILABLE TO THE RECIPIENT AND THE OVERALL MPO COST

Given the size of the LEP population in the MPO's planning boundary and financial constraints, full translation of all transportation plan documents, except for vital documents (a document that contains information critical to obtaining federal funds or benefits), is not feasible at this time. However, continued growth of our area and its Spanish-speaking population makes offering Spanish translation, in many areas, a good community investment; therefore, the MPO will make efforts to collaborate with state and local agencies to provide language translation and interpretation services where practical within the scope of funding available.

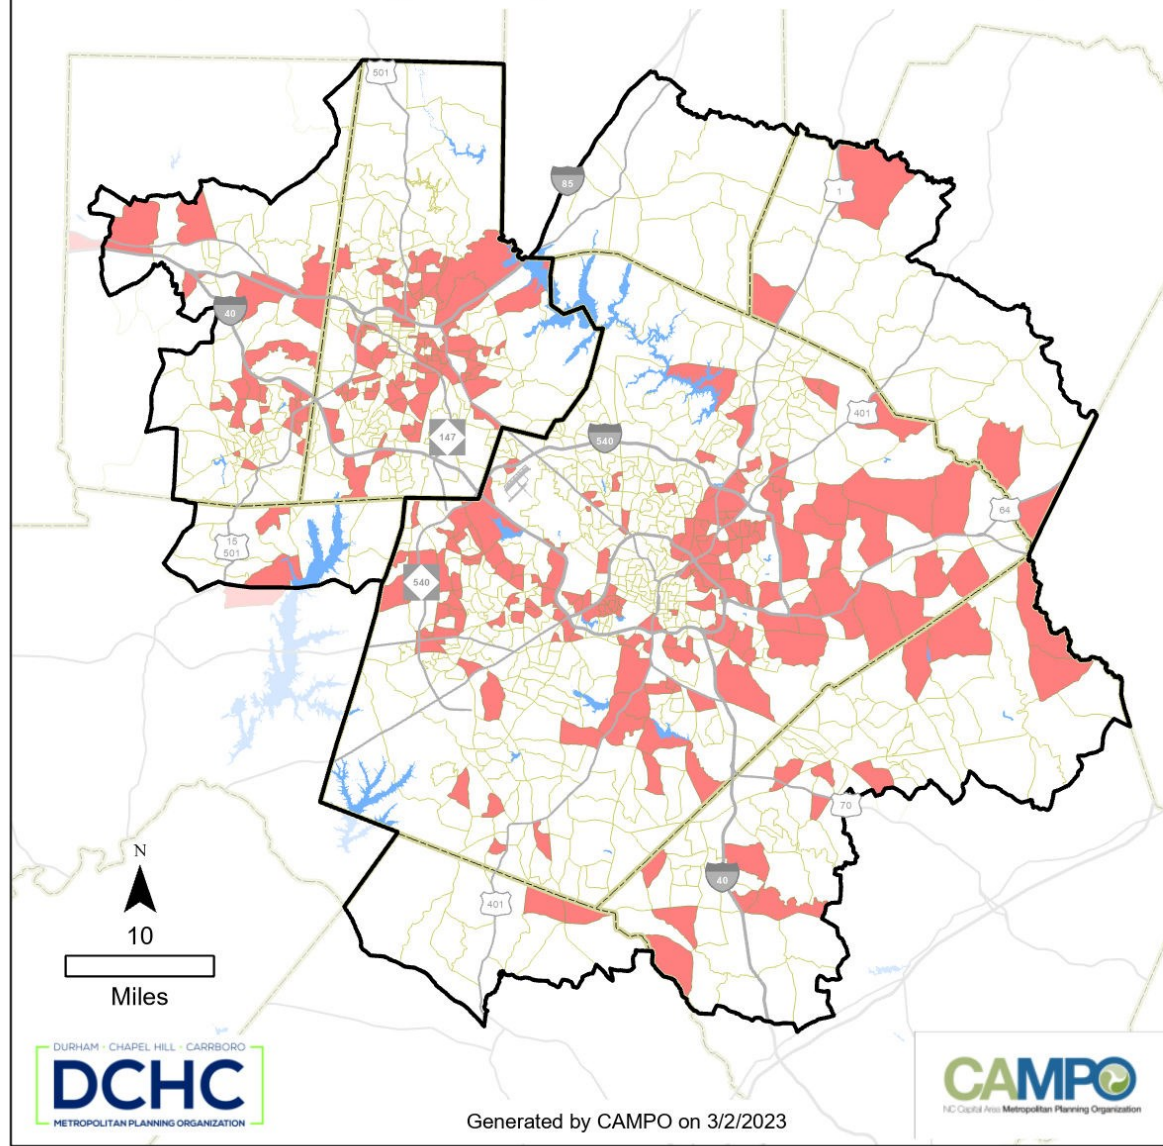

The Capital Area MPO will use a “seven business day” notification statement in order to be accommodating to the public. If the seven-day notice becomes impractical to meet LEP assistance requests, this LEP plan standard will be changed.

LEP: MEETING THE REQUIREMENTS

LANGUAGE ASSISTANCE PLAN

As a result of the four-factor analysis, a Language Assistance Plan is *not* required at this time, however the following Plan represents CAMPO's commitment to ensuring nondiscrimination and meaningful access by persons who are Limited English Proficient. Engaging the diverse population within the MPO boundaries is important. CAMPO is committed to providing quality services to all community members, including the LEP population we serve.

LEP: PROVIDING NOTICE TO EJ POPULATIONS INCLUDING LEP PERSONS

The USDOT LEP guidance indicates that once an agency has decided, based on the four factors, to provide language services, it is important that the recipient notify LEP persons of service is available free of charge in languages LEP persons would understand. Examples of methods of notification include:

1. Stating in outreach documents that language services are available
2. Signage that free language assistance is available with advance notice
3. Working with community-based organizations and other stakeholders to inform LEP individuals of the MPO services and the availability of language assistance
4. Providing information as to the availability of translation services (free of charge) when advertising for MPO hosted public hearings or public meetings.

Other reasonable steps will depend on:

- The number and proportion of LEP persons potentially served by the program or activity and the variety of languages spoken in the service area.
- The frequency with which LEP individuals are affected by the program or activity.
- The importance of the effect of the program on LEP individuals.
- The resources available to the recipient and the urgency of the situation.
- The level of services provided to fully English proficient people.
- Whether LEP persons are being excluded from services or provided a lower level of services.
- Whether the recipient has adequate justification for restrictions, if any, on special language services or on speaking languages other than English.

The Capital Area MPO intends to take reasonable steps to make available interpreter services, free of charge, and to include, at a minimum, Spanish translators upon request of at least seven business days prior to MPO Executive Board and committee meetings, as well as other public

August 2023

meetings or events. The MPO is defining an interpreter as a person who translates spoken language as opposed to a translator who translates written language and transfer the meaning of the text from one language into another.

Ongoing MPO service standards include:

- Coordination with the Town of Cary personnel department to provide a telephone hotline interpreter for phone and/or walk-in persons.
- Coordination with non-English newspapers to translate legal advertisements.
- Coordination with partner agencies and special needs organizations to meet requested needs.
- The MPO maintains an online presence and strives to make both translation engines for many languages and automated readers/text resizing for the visually impaired or those with literacy challenges available.
- Creation of a list of inside and outside sources that can provide competent oral interpretation and written translation services.
- Analysis of the cost of these services and Identification of potential budget and personnel limitations pertaining to these services.

TITLE VI / LEP: MPO STAFF TRAINING

MPO staff will be provided with the Title VI/LEP plan and will be educated on procedures and services available at least once every three (3) years. Basic training will cover all sections of this Plan and our overall Title VI obligations. Staff may receive specialized training on how Title VI applies to their specific work areas. This information will also be part of the MPO staff orientation process for new hires within 30 days of their start date. Such training will be developed to ensure that staff is fully aware of Title VI and LEP policies and procedures and are effectively able to work in person and/or by telephone with LEP individuals. Trainings will be provided and/or organized by the Title VI Coordinator and will often coincide with updates to nondiscrimination policies and procedures. Records of staff trainings, such as agendas, sign-in sheets, copies of calendars, and certificates, will remain on file for at least three years.

MPO Executive Board members will receive a copy of the Title VI/LEP plan and have access to training, assuring they are fully aware of and understand the Plan and its implementation.

TITLE VI AND LEP: MONITORING AND UPDATING

It is the responsibility of every official who develops policies, procedures, manuals, guidelines, and other directives to ensure they have been reviewed for Title VI compliance. All staff members will assist in carrying out this requirement making sure drafts of these documents are submitted to the Title VI Coordinator to ensure Title VI requirements are included.

This plan is designed to be flexible and is one that can be easily updated. At a minimum, the MPO will evaluate, and update if appropriate, the Title VI/LEP plan as needed on a four-year basis. Each update should examine all Plan components, such as:

- Number of LEP persons encountered
- Were their needs met?
- Were any complaints received?
- What is the current LEP population of the MPO area by County?
- Has there been a change to the languages where interpretation and translation services may be needed?
- Have available resources, such as technology, staff, and financial costs, changed?
- Has CAMPO fulfilled the goals of the Title VI/LEP plan?

TITLE VI/LEP: DISSEMINATION OF THE TITLE VI/LEP PLAN

In accordance with 23 CFR 200.9(b)(12) and 49 CFR 21.9(d), CAMPO will utilize community outreach and public education to disseminate Title VI/LEP information to our employees, contractors, sub-recipients and the general public. Reasonable steps will be taken to make the public aware of their rights and our obligations under Title VI through, including, but not limited to:

- Visibly posting CAMPO's Title VI Policy Statement in the Board Room at the office, at MPO hosted public meetings, and prominently in any public facing documents and reports we distribute;
- Prominently posting a link to the Title VI/LEP Plan on the website at www.campo-nc.us. Any person, including social service, nonprofit, and other community partners with Internet access, will be able to access the plan. For those without personal Internet service, County libraries offer free Internet access.
- Placing notices in newspapers and publications with a large circulation among minority groups in the general vicinity of projects and activities. Ads in newspapers and other publications shall include the following:

*“CAMPO operates without regard to **race, color, national origin, limited English proficiency, sex, age or disability**. For more information on our Title VI program, or how to file a discrimination complaint, please contact Bonnie Parker at (984) 542-3604; Bonnie.Parker@campo-nc.us.”*

- Translating information into languages other than English that meet the LEP safe harbor threshold;
- Incorporating Title VI language into our contracts and agreements (See Appendix A for Title VI Contract Language); and
- Ensuring any contractors and sub-recipients for the MPO also receive and disseminate Title VI information.
- Copies of the Title VI/LEP Plan are provided to each Technical Coordinating Committee member, the Clerk to each member jurisdiction, NCDOT, FHWA, FTA, and any person or agency requesting a copy.

Please refer to our Public Participation Plan (PPP) for additional outreach methods we employ to comply with Title VI. The 2023 Update to the PPP also includes a set of performance measures and targets that are compatible with Title VI, language assistance, and meaningful engagement. Our PPP can be found at www.campo-nc.us.

TITLE VI/LEP: EXTERNAL DISCRIMINATION COMPLAINT PROCEDURES

These external discrimination complaint procedures apply to the Capital Area Metropolitan Planning Organization (CAMPO), and cover complaints filed under Title VI of the Civil Rights Act of 1964 and other nondiscrimination authorities applicable to programs, services, or activities carried out by CAMPO or its agents.

CAMPO will make every effort to obtain early resolution of complaints at the lowest level possible. Complaints of alleged discrimination will be investigated by the appropriate authority. The option of informal mediation between the affected parties and CAMPO staff may be utilized for resolution. Upon completion of each investigation, CAMPO staff will inform every complainant of all avenues of appeal.

The purpose of these discrimination complaint procedures is to describe the process used by CAMPO for processing and investigating alleged complaints of discrimination.

FILING OF COMPLAINTS

Applicability – The complaint procedures apply to the beneficiaries of CAMPO programs, activities, and services, including the public and any consultants/contractors hired by CAMPO.

Eligibility – Any person or class of persons who believes that he/she has been subjected to discrimination or retaliation prohibited by any of the Civil Rights authorities, based upon race, color, sex, age, national origin, or disability may file a written complaint with CAMPO. The law prohibits intimidation or retaliation of any sort. The complaint may be filed by the affected individual or a representative and must be in writing.

Time Limits and Filing Options – A complaint must be filed no later than 180 calendar days after the following:

- The date of the alleged act of discrimination; or
- The date when the person(s) became aware of the alleged discrimination; or
- Where there has been a continuing course of conduct, the date on which that conduct was discontinued or the latest instance of the conduct.

Complaints may be submitted to the following entities:

Format for Complaints – Complaints shall be in writing and signed by the complainant(s) or a representative and include the complainant's name, address, and telephone number. Complaints received by fax or e-mail will be acknowledged and processed. Allegations received by telephone or in person will be reduced to writing, may be recorded and will be provided to the complainant for confirmation or revision before processing. Complaints will be accepted in other languages including Braille.

Complaint Basis – Allegations must be based on issues involving race, color, national origin, sex, age, or disability. The term "basis" refers to the complainant's membership in a protected group category.

Protected Categories	Definition	Examples	Applicable Statutes and Regulations	
			FHWA	FTA
Race	An individual belonging to one of the accepted racial groups; or the perception, based usually on physical characteristics that a person is a member of a racial group	Black/African American, Hispanic/Latino, Asian, American Indian/Alaska Native, Hawaiian/Pacific Islander, etc.	Title VI of the Civil Rights Act of 1964; 49 CFR Part 21; 23 CFR 200	Title VI of the Civil Rights Act of 1964; 49 CFR Part 21; Circular 4702.1B
Color	Color of skin, including shade of skin within a racial group	Black, White, brown, yellow, etc.		
National Origin	Place of birth. Citizenship is not a factor. Discrimination based on language or a person's accent is also covered	Mexican, Cuban, Japanese, Vietnamese, Chinese		
Sex	Gender	Women and Men	1973 Federal-Aid Highway Act	Title IX of the Education Amendments of 1972
Age	Persons of any age	21 year old person	Age Discrimination Act of 1975	
Disability	Physical or mental impairment, permanent or temporary, or perceived.	Blind, alcoholic, para-amputee, epileptic, diabetic, arthritic	Section 504 of the Rehabilitation Act of 1973; Americans with Disabilities Act of 1990	

COMPLAINT PROCESSING

When a complaint is received by CAMPO, the following steps will be followed:

- i. A written acknowledgment and a Consent Release form will be mailed to the complainant within ten (10) business days by registered mail.
- ii. CAMPO cannot investigate Title VI complaints filed against itself but can investigate ADA complaints against itself. CAMPO will consult with the NCDOT External Civil Rights Section to determine the acceptability and jurisdiction of all complaints received. (Note: If NCDOT has jurisdiction, the External Civil Rights Section will be responsible for the remainder of this process. CAMPO will record the transfer of responsibility in its complaints log).
- iii. Additional information will be requested if the complaint is incomplete. The complainant will be provided 15 business days to submit any requested information and the signed Consent Release form. Failure to do so may be considered good cause for a determination of no investigative merit.
- iv. Upon receipt of the requested information and determination of jurisdiction, CAMPO will notify the complainant and respondent of whether the complaint has sufficient merit to warrant investigation.
- v. If the complaint is investigated, the notification shall state the grounds of the CAMPO's jurisdiction, while informing the parties that their full cooperation will be required in gathering additional information and assisting the investigator.
- vi. If the complaint does not warrant investigation, the notification to the complainant shall specifically state the reason for the decision.

COMPLAINT LOG

When a complaint is received by CAMPO, the complaint will be entered into the Discrimination Complaints Log with other pertinent information and assigned a Case Number. (Note: All complaints must be logged). The complaints log will be submitted to the NCDOT's Civil Rights office during Title VI compliance reviews. (Note: NCDOT may also be request the complaints log during pre-grant approval processes). The Log Year(s) since the last submittal will be entered (e.g., 2012-2015, 2014-2015, FFY 2015, or 2015) and the complaints log will be signed before submitting the log to NCDOT. When reporting no complaints, check the No Complaints or Lawsuits box and sign the log.

Please refer to **Appendix 3** for a copy of our Discrimination Complaint Form, Complaints Log, and Sample Investigation Template.

COMPLIANCE AND ENFORCEMENT PROCEDURES

To ensure compliance with Title VI, CAMPO will take proactive steps to prevent discrimination in our programs and activities, including the following:

- ❑ Conduct periodic Title VI training;
- ❑ Address Title VI issues at staff meetings;
- ❑ Participate or cooperate during compliance reviews conducted by NCDOT;
- ❑ Inform and monitor any consultants/contractors regarding their Title VI obligations, including review of contracts for nondiscrimination language;
- ❑ Customize public outreach according to the situation or community at hand;
- ❑ Build a system of mutual trust and two-way communication with the public;
- ❑ Maintain pertinent demographic data (statistical);
- ❑ Ensure policies and procedures support and comply with Title VI;
- ❑ Document processes and activities related to Title VI.

FHWA recipients must have mechanisms in place to enforce compliance with Title VI. CAMPO utilizes internal training, meetings, monitoring contractors, technical assistance, and findings from periodic NCDOT reviews to identify deficiencies and potential discrimination. If NCDOT identifies deficiencies, CAMPO will address all deficiencies within 90 days based on a Corrective Action Plan (CAP). If attempts by NCDOT to resolve a compliance issue are unsuccessful, NCDOT may take any or all of the following steps with FHWA's concurrence:

- a. Canceling, terminating, or suspending the contract or agreement in whole or in part.
- b. Refraining from extending any further assistance to the recipient under the program with respect to which the failure or refusal occurred until satisfactory assurance of future compliance has been received from the recipient.
- c. Taking such other action that may be deemed appropriate under the circumstances, until compliance or remedial action has been accomplished by the recipient.
- d. Referring the case to the FHWA for appropriate administrative or legal proceedings.
- e. Other means authorized by law.

If compliance issues are identified with MPO consultants/contractors, CAMPO will also take corrective action. If attempts at corrective action are unsuccessful, any or all of the following steps may be taken with NCDOT's concurrence:

- a. Canceling, terminating, or suspending the contract or agreement with the consultant/contractor in whole or in part.
- b. Taking such other action that may be deemed appropriate under the circumstances.

- c. Referring the case to the NCDOT for appropriate administrative or legal proceedings.

ADDITIONAL CONSIDERATIONS

CAMPO's Public Participation Plan (PPP) references this plan for special outreach strategies used to increase participation in populations not effectively reached by conventional methods. Many of the populations in the communities of concern fall into this category.

It is important to understand that the community of concern identification is meant to be used at the regional scale. For small area plans, corridor plans, and project-level outreach the community of concern map is a starting point. Additional strategies for outreach and identifying unique populations are likely to be needed at these scales.

Examples of additional methods of identifying where special populations might be could include (but are not limited to):

- Increasing the threshold for the indicators to be above the regional average (mean) or regional median.
- Field surveys
- Outreach to community organizations to assist staff

Any questions or comments regarding this plan should be directed to the MPO Public Engagement Planner/Title VI Coordinator:

APPENDIX 3, A-E: STANDARD TITLE VI ASSURANCES, FORMS, AND PROCEDURES

DRAFT

A - STANDARD TITLE VI ASSURANCES

The North Carolina Capital Area MPO (hereinafter referred to as the “Recipient”) HEREBY AGREES THAT as a condition to receiving any Federal financial assistance from the NC Department of Transportation, or the U.S Department of Transportation or its affiliates, it will comply with the Title VI of the Civil Rights Act of 1964, 78 Stat. 252, 42 U.S.C. 2000d-42 (hereinafter referred to as the Act), and all requirements imposed by or pursuant to Title 49, Code of Federal Regulations, Department of Transportation, Subtitle A, Office of the Secretary, Part 21, Nondiscrimination in Federally-Assisted Programs of the Department of Transportation. Effectuation of Title VI of the Civil Rights Act of 1964 (hereinafter referred to as the Regulations) and other pertinent directives, to the end that in accordance with the Act, Regulations, and other pertinent directives, no person in the United States shall, on the grounds of race, color, sex, age, national origin or disability be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity for which the Recipient receives Federal financial assistance from the Department of Transportation, including the Federal Highway Administration and the Federal Transit Administration, and HEREBY GIVES ASSURANCE THAT it will promptly take any measures necessary to effectuate this agreement. This assurance is required by subsection 21.7(a) (1) of the Regulations.

More specifically and without limiting the above general assurance, the Recipient hereby gives the following specific assurances with respect to any Federal financial assistance:

1. That the Recipient agrees that each “program” and each “facility” as defined in subsections 21.23 (b) and 21.23 (e) of the Regulations, will be (with regard to a “program”) conducted, or will be (with regard to a “facility”) operated in compliance with all requirements imposed by, or pursuant to, the Regulations.
2. That the Recipient shall insert the following notification in all solicitations for bids for work or material subject to the Regulations made in connection with the Federal-Aid Highway Program and, in adapted form in all proposals for negotiated agreements:

The NC Capital Area MPO, in accordance with Title VI of the Civil Rights Act of 1964, 78 Stat. 252, 42 U.S.C. 2000d to 2000d-4 and Title 49, Code of Federal Regulations, Department of Transportation, Subtitle A, Office of the Secretary, Part 21, Nondiscrimination in Federally-assisted programs of the Department of Transportation issued pursuant to such Act, hereby notifies all bidders that it will affirmatively insure that in any contract entered into pursuant to this advertisement, minority business enterprises will be afforded full opportunity to submit bids in response to this invitation and will not be discriminated against on the grounds of race, color, or national origin in consideration for an award.

3. That the Recipient shall insert the clauses of Appendix A (sometimes referred to as Exhibit in contracts) of this assurance in every contract subject to the Act and the Regulations.
4. That where the Recipient receives Federal financial assistance to construct a facility, or part of a facility, the assurance shall extend to the entire facility and facilities operated in connection

therewith.

5. That where the Recipient receives Federal financial assistance in the form, or for the acquisition of real property or an interest in real property, the assurance shall extend to rights to space on, over or under such property.
6. That the Recipient shall include the appropriate clauses set forth in Appendix C of this assurance, as a covenant running with land, in any future deeds, leases, permits, licenses, and similar agreements entered into by the Recipient with other parties: (a) for the subsequent transfer of real property acquired or improved under the Federal-Aid Highway Program; and (b) for the construction or use of or access to space on, over or under real property acquired, or improved under the Federal-Aid Highway program.
7. The Recipient shall provide for such methods of administration for the program as are found by the Secretary of Transportation or the official to whom he delegates specific authority to give reasonable guarantee that it, other recipients, subgrantees, contractors, subcontractors, transferees, successors in interest, and other participants of Federal financial assistance under such program will comply with all requirements imposed or pursuant to the Act, the Regulations and this assurance.
8. The Recipient agrees that the United States has a right to seek judicial enforcement with regard to any matter arising under the Act, the Regulations, and this assurance.

THIS ASSURANCE is given in consideration of and for the purpose of obtaining any and all Federal grants, loans, contracts, property, discounts or other Federal financial assistance extended after the date hereof to the Recipient under the Federal-Aid Highway Program and is binding on it, other recipients, subgrantees, contractors, subcontractors, transferees, successors in interest and other participants in the Federal-Aid Highway Program. The person or persons whose signatures appear below are authorized to sign this assurance on behalf of the Recipient.

Signed this _____ day of _____, 20_____.

Executive Director, N.C. Capital Area MPO

*The following CAMPO Federal Requirements
must be included with all MPO contracts for
services, as applicable.*

E: COMPLAINT PROCESSES

INTERNAL COMPLAINT PROCESS

Initial Contact

As resources, the MPO will provide complainants with an explanation of the filing options, information concerning the discrimination complaint process and a Title VI Discrimination Complaint Form.

The Complaint Review Process

- a. The Title VI Compliance will review complaints upon receipt to ensure that relevant information is provided, the complaint is timely, and satisfies jurisdictional requirements.
- b. All complaints shall be investigated unless:
 - The complaint is withdrawn;
 - The complainant fails to provide required information in a timely manner;
 - The complaint is not filed timely; and
 - Any issues that do not involve discrimination, or are not based on a protected basis will be directed to the appropriate entity. Under no circumstances will complainants be discouraged from filing a complaint.
- c. The MPO's Title VI Compliance will investigate all complaints filed against the MPO's contractors, subcontractors, consultants, and other sub-recipients.
- d. Complaints filed against the MPO will be forwarded to the appropriate federal agency for processing and investigation.
- e. Upon determination that the complaint warrants an investigation, the complainant is sent a certified letter acknowledging receipt of the complaint within 10 days of receipt of the complaint. The name of the investigator is provided as well as the complainant's rights under Title VI and related statutes.
- f. The respondent is notified by certified mail that he/she has been named in a complaint and is provided with his/her rights under Title VI and related statutes. The letter identifies the investigator's name and informs the respondent that he/she will be contacted for an interview.

INVESTIGATION

Investigative Plan

The investigator shall prepare an investigative plan that includes, but is not limited to, the following:

- Complainant(s) name and address;
- Respondent(s) name and address;
- Applicable law(s);
- Basis for the complaint;
- Allegations, events or circumstances that caused the person to believe that he/she has been discriminated against;
- Appropriate information needed to address the issue;

- Name of persons to be interviewed and issues of which they have first-hand knowledge;
- Questions for the complainant, respondent, and witness(es);
- Evidence to be obtained during the investigation; and
- Remedy sought by the complainant.

Conducting the Investigation

- The investigation will address only those issues relevant to the allegations in the complaint.
- Confidentiality will be maintained to the fullest extent possible.
- Interviews will be conducted to obtain the facts and evidence regarding the allegations in the complaint. The investigator will ask questions to elicit information about aspects of the case that the witness can provide firsthand information.
- Interviews are taped/recorded with the interviewee's consent.
- A chronological contact sheet is maintained in the case file throughout the investigation.
- The investigation working papers are completed, cross-referenced and indexed.
- The interviewee may have representation of his/her choice at the interview.

Informal Resolution

The Alternative Dispute Resolution (ADR) process is offered as an alternative for resolving Title VI complaints. During the investigative process, the investigator will make every effort to assist the parties with reaching a voluntary, negotiated resolution. During the initial interviews with the complainant and respondent, the investigator will request information regarding specifically requested relief and settlement opportunities. The attempts to resolve complaints using ADR are required by the Alternative Dispute Resolution Act of 1998.

Investigation Reporting Process

- Within 60 days of conducting the investigation, the investigator will prepare an investigative report and submit the report and supporting documentation to the Title VI Compliance for review. The investigative report should include recommended decisions.
- The investigative report should outline the following complaint details: Date of written complaint, contract number, contractor and/or subcontractor name, and the complaint basis (race, color, national origin, et cetera).
- The Title VI Compliance will review the file and investigative report. Subsequent to the review, the Executive Director will submit the investigative reports, investigative files, and recommended decisions to the Executive Director.
- Upon the Director's approval, the investigative report and recommended decisions shall be forwarded to FHWA for a final agency decision.

RECORDS

All records and investigative working files will be maintained in a confidential area within the MPO. Records are kept for ten years internally.

DISCRIMINATION COMPLAINT FORM

Any person who believes they have been subjected to discrimination based upon race, color, sex, age, national origin, or disability may file a written complaint with Capital Area MPO, within 180 days after the discrimination occurred.

PROCESO DE QUEJAS POR DISCRIMINACIÓN

INTRODUCCIÓN

Los procedimientos de quejas presentadas en este documento se aplican al MPO y otros destinatarios principales y los sub-receptores que reciben ayuda Federal. Estos procedimientos se aplicarán a las quejas por discriminación presentadas en virtud del Título VI del Acta de Derechos Civiles de 1964, Ley de Restauración de Derechos Civiles de 1987, la Sección 504 del Acta de Rehabilitación de 1973, y autoridades de la no discriminación en relación con cualquier otro actividades, programa, o servicios administrados por el NCDOT y sus sub-receptores, consultores y contratistas. MPO hará todo lo posible para obtener pronta resolución de las quejas en el nivel más bajo posible de administración. Denuncias de presunta discriminación serán investigadas por las autoridades competentes. La opción de reunión(es) de mediación informal entre las partes afectadas y el personal de Title VI Compliance puede ser utilizada para su resolución. Al término de cada investigación, el personal de la Title VI Compliance informará a cada demandante todas las vías de recurso.

PROPÓSITO

El propósito de los procedimientos de denuncia por discriminación es describir el proceso utilizado por la MPO para tramitar las quejas en virtud del Título VI del Acta de Derechos Civiles de 1964, relacionados con los estatutos y las autoridades.

PRESENTACIÓN DE QUEJAS

1. **Aplicación** – Los procedimientos de queja aplican a los beneficiarios de los programas de la MPO, actividades y servicios, incluyendo pero no limitando a la opinión pública, contratistas, subcontratistas, consultores y otros sub-receptores de fondos federales y estatales.
2. **Elegibilidad** – Cualquier persona o grupo de personas que crea haber sido objeto de discriminación o represalia prohibida por alguna de las autoridades de Derechos Civiles, basada en la raza, color, sexo, edad, origen nacional o discapacidad, puede presentar una queja por escrito a la NC Capital Area MPO, ATTN: Title VI Compliance. La ley prohíbe la intimidación o represalias de ningún tipo. La denuncia podrá ser presentada por la persona afectada o un representante y debe ser por escrito.
3. **Plazos y opciones de presentación** – La queja debe ser presentada a más tardar 180 días naturales después de lo siguiente:
 - La fecha del supuesto acto de discriminación; o
 - La fecha en que la persona(s) se dió cuenta de la supuesta discriminación; o
 - Cuando ha sido un curso continuo de conducta, la fecha en que dicho comportamiento se interrumpió o en el último ejemplo de dicha conducta.

Título VI las quejas podrán presentarse a las siguientes entidades:

- **North Carolina Capital Area MPO**
Attn: Title VI Compliance; 1 Fenton Main Street, Suite 201; Cary, NC 27511;
