Connect 2045; Update on SE Data, future scenario development, and land use modeling

John Hodges-Copple, Triangle J COG

The 2045 Metropolitan Transportation Plan (MTP) will be a joint plan by the Capital Area MPO and the DCHC MPO as has been the case for the last two plan updates. The Triangle J Council of Government (TJCOG) has been responsible for coordinating the many activities and tasks of the two MPOs and of local government staff, particularly with the CommunityViz land use allocation activities. TJCOG will provide an update on expected methodologies for the socioeconomic data (SE Data), land use modeling (Community Visualization) and the land use scenarios and transportation networks needed for an alternatives analysis, and on assistance that will be needed from local government staff. Support documents are included as attachments.
