STI Bonus Allocation Methodology - Guiding Principles

Alex Rickard / CAMPO Staff

The STI law provides for bonus allocation funding for tolled roadway projects and other projects receiving local contributions. The MPO is in the process of developing a methodology for selecting projects to be programmed with these bonus allocation funds. The TCC TIP/SPOT Subcommittee has developed a collection of guiding principles to instruct staff and their consultants in the development of this methodology.

MPO staff will present and discuss the recommended guiding principles.

Requested Action: Recommend for approval by the Executive Board for the guiding principles for development of the Bonus Allocation Methodology.
